

Session Program

31 August 2019 to 5 September 2019

Association Physique-Outremer

Young physicist

Tuesday 3 September

01:50

Young physicist Session

01:50–02:20

The Key Science Projects of the Cherenkov Telescope Array

Speaker

Germán Gómez-Vergas

02:20–02:35

ATLAS search for dark matter produced in association with a hadronically decaying vector boson

Speaker

Wei Wang

02:35–02:50

ATLAS search for an invisibly decaying Higgs boson produced via vector boson fusion

Speaker

Vincent Kitali

02:50–03:05

CMS CT-PPS physics results and prospects

Speaker

Justin Williams

03:05
