

Session Program

24-26 Sept 2020

**Virtual Conference of the Polish Society on
Relativity 2020**

Mixed - extending gravity

Saturday 26 September

17:45

Mixed - extending gravity

Session

17:45–18:00

Asymptotic generalized extended uncertainty principle

Speaker

Fabian Wagner

18:00–18:15

Quantum fluctuations of the compact phase space cosmology

Speaker

Sean Crowe

18:15–18:30

Computable Loop Quantum Gravity

Speaker

Gioele Botta

18:30–18:45

The kinetic gas universe - Lifting the Einstein Vlasov system to the tangent bundle

Speaker

Christian Pfeifer

18:45–19:00

Hairy black holes and the dark sector influence

Speaker

Bartłomiej Kiczek

19:00
