

Session Program

28-30 Sept 2022

Noncommutative geometry: metric and spectral aspects

28-afternoon

Wednesday 28 September

14:30

28-afternoon

Session | **Location:** Jagiellonian University, Cracow

14:30–15:30

Localization and quantum observers in some Lie-algebra type noncommutative spacetimes.

Speaker

Fedele Lizzi

15:30–16:30

Curvature for modules over spectral triples

Speaker

Bram Mesland

16:30–17:30

The Gromov-Hausdorff distance in noncommutative geometry: convergence of quantum compact metric spaces and their modules

Speaker

Frederic Latremoliere

17:30
