Session1

Session |

Location: <http://tensyo.yunokuni.jp/foreign/en/> Yamashiro Spa Yunokuni Tensho, Kaga, Ishikawa, JAPAN |

Convener: Shigeru Yoshida

13:30-13:35

Opening remarks

Speaker

Prof. Masato Shiozawa

13:35-14:00

A02:Latest results from Double Chooz with two detectors

Speaker

Tsunayuki Matsubara

14:00-14:25

A03:Design and Physics potentials of Hyper-K

Speaker

Dr Takatomi Yano

14:25-14:50

A04:Recent results from IceCube

Speaker

Lu Lu

14:50-15:02

B01:Nuclear emulsion production and applications

Speaker

Osamu Sato

15:02-15:15

B01:Detailed study of neutrino-nucleus interactions using nuclear emulsion at J-PARC (T60 experiment)

Speaker

Satoru Ogawa

15:15-15:40

B02:Development of Far-infrared Spectrophotometers based on Superconducting Tunnel Junction (STJ) for COBAND experiment

Speaker

Yuji Takeuchi

15:40
