Using GitHub to manage Moodle plugin development.

Saturday 17 February 2024 14:50 (10 minutes)

Developing a Moodle plugin as a one-time project one-on-one with a software engineer is often best managed through email or familiar communication apps. However, a reliable project management system like GitHub is required when developing a Moodle plugin involving continuous bug fixing and iterative improvement, a team of contributing developers, software developers and Moodle administration staff, and rolling version upgrades over many years. This talk examines the choice of GitHub for managing a plugin development project and the benefits and challenges experienced.

発表の種類 / Presentation type

ライトニング・トーク（１０分）/ Lightning talk (10 mins)

これは商業的な発表会なのか？/ Is this a commercial presentation?

非商用 / Non-commercial

発表日の希望 / Preferred day

2 月 17 日（土）/ February 17 Saturday

Author: MUIR, Brendon (Sapporo Gakuin University)

Presenter: MUIR, Brendon (Sapporo Gakuin University)

Session Classification: 2104 号室 / Room 2104

Track Classification: Moodle の機能開発 / Moodle development
