Getting started teaching with Moodle

Friday 16 February 2024 14:40 (1h 30m)

This is a workshop for the first-time Moodle. Participants will be able to learn the basics of Moodle by working, hands-on with a real live online Moodle site. The basics of the site, course contexts and categories will be explained before moving on to how to actually use Moodle for teaching. The workshop will be scaffolded using the SDCE (Static, Dynamic, Communicative, Explorative) model. Participants will first look at adding Static contents for students, for example providing slides and/or handouts for download as PDF or adding multimedia contents. Next, we will look at how to use Moodle's more interactive (Dynamic) features like quizzes and the choice module. Following this will be a demonstration of using Moodle for Communication and collaboration between students, leading into students Exploring their world and sharing what they find with their classmates. The many challenges facing both the student and teacher will be discussed as well as general course planning strategies for the smooth adoption of e-learning with Moodle.

発表の種類 / Presentation type

ワークショップ (90分) / Workshop (90 mins)

これは商業的な発表会なのか? / Is this a commercial presentation?

非商用 / Non-commercial

発表日の希望 / Preferred day

どちらの日でも結構です / Either day is fine
