MoodleNet Japan–Current Status & Directions

Friday 28 February 2025 09:30 (15 minutes)

MoodleNet is the global open courseware and OER sharing site, located at <https://moodlenet.org>. The Moodle Association of Japan now has a regional site called 'MoodleNet Japan' (<https://majnet.moodlejapan.org/>) which has recently been upgraded. This local MoodleNet has evolved from the open courseware sharing site called the 'Showcase' which MAJ has maintained for fifteen years (<https://showcase.moodlejapan.org>). This lightning talk will explain how the Showcase and MoodleNet work together and the direction of future development. The officer managing MoodleNet, Martin Meadows, has prepared slides of about the recent upgrade of MoodleNet and his vision of the next stages of development. Don Hinkelman will summarize the direction of global OER (open educational resources) and how this might affect Moodle-based courseware. This includes the question of how commercial and open courseware can co-exist on Moodle.
