

Session Program

22-26 May 2023

International Conference on Precision Physics and Fundamental Physical Constants FFK2023

Friday 2

Friday 26 May

11:00

Friday 2: Antiprotons

Session | **Location:** Kleiner Festsaal Universität Wien Universitätsring 1 1010 Wien | **Convener:** Savely Karshenboym

11:00–11:40

Testing fundamental physics with trapped antihydrogen

Speaker

Tim Friesen

11:40–12:20

Studies of Exotic Physics with Antiprotons and Protons

Speaker

Prof. Stefan Ulmer

12:20–12:50

Laser spectroscopy of antiprotonic helium embedded in liquid and superfluid helium

Speakers

Masaki Hori, Masaki Hori

12:50
