

Session Program

6-8 Sept 2021

**Anomalies and Precision in the Belle II Era -
Workshop**

Session on tau lepton

Wednesday 8 September

09:00

Session on tau lepton

Session

09:00–09:20

Tau Physics experimental status and prospects

Speaker

Alberto Lusiani

09:30–09:50

Overview of tau physics at Belle II (Remote)

Speaker

Ami Rostomyan

10:00–10:15

LFU test in leptonic/hadronic tau decays at Belle II

Speaker

Petar Kevin Rados

10:20–10:50

Coffee Break

10:50–11:05

$\tau \rightarrow l \phi$ and $\tau \rightarrow l l l$ at Belle II (Remote)

Speaker

Dr Alberto Martini

11:10–11:25

Connecting tau to other anomalies

Speaker

Claudia Cornella

11:30–11:45

Leptoquarks

Speaker

Clara Murgui

11:50
