

**Session Program**

**6-8 Sept 2021**

**Anomalies and Precision in the Belle II Era -  
Workshop**

***Dark sectors***

# Wednesday 8 September

12:00

## Dark sectors

### Session

12:00–12:20

#### Connecting dark sector with other anomalies (Remote)

##### Speaker

Marco Fedele

12:30–12:45

#### Heavy neutral leptons

##### Speaker

Michele Tammaro

12:50–14:05

#### Lunch break

14:05–14:25

#### Dark matter at the GeV scale and searches at low-energy experiments (Remote)

##### Speaker

Felix Kahlhoefer

14:30–14:45

#### Dark sector searches at Belle (Remote)

##### Speaker

Thomas Czank

14:50–15:10

#### Dark sector searches at Belle II

##### Speaker

Laura Zani

15:15–15:30

#### Missing energy and displaced vertices at Belle II

##### Speaker

Michel Bertemes

15:35–16:00

#### Coffee Break

16:00–16:15

#### Axion-like particles at flavour experiments (Remote)

##### Speaker

Sophie Renner

16:20–16:35

#### GAZELLE - physics potential of proposed LLP detector for Belle II

##### Speaker

Anastasiia Filimonova

16:40–17:00

#### Dark sector and new ideas for LLP searches at LHCb (Remote)

##### Speaker

Xabier Cid Vidal

17:00
