

# Discussion Warmup

# Discussion Warmup

- first BCLC workshop
- so far BCLC is just an idea
- rather fuzzy profile
- Let's try to sharpen the contours.
- We have prepared a short live survey in the hope to engage all of you.

# How does it work?

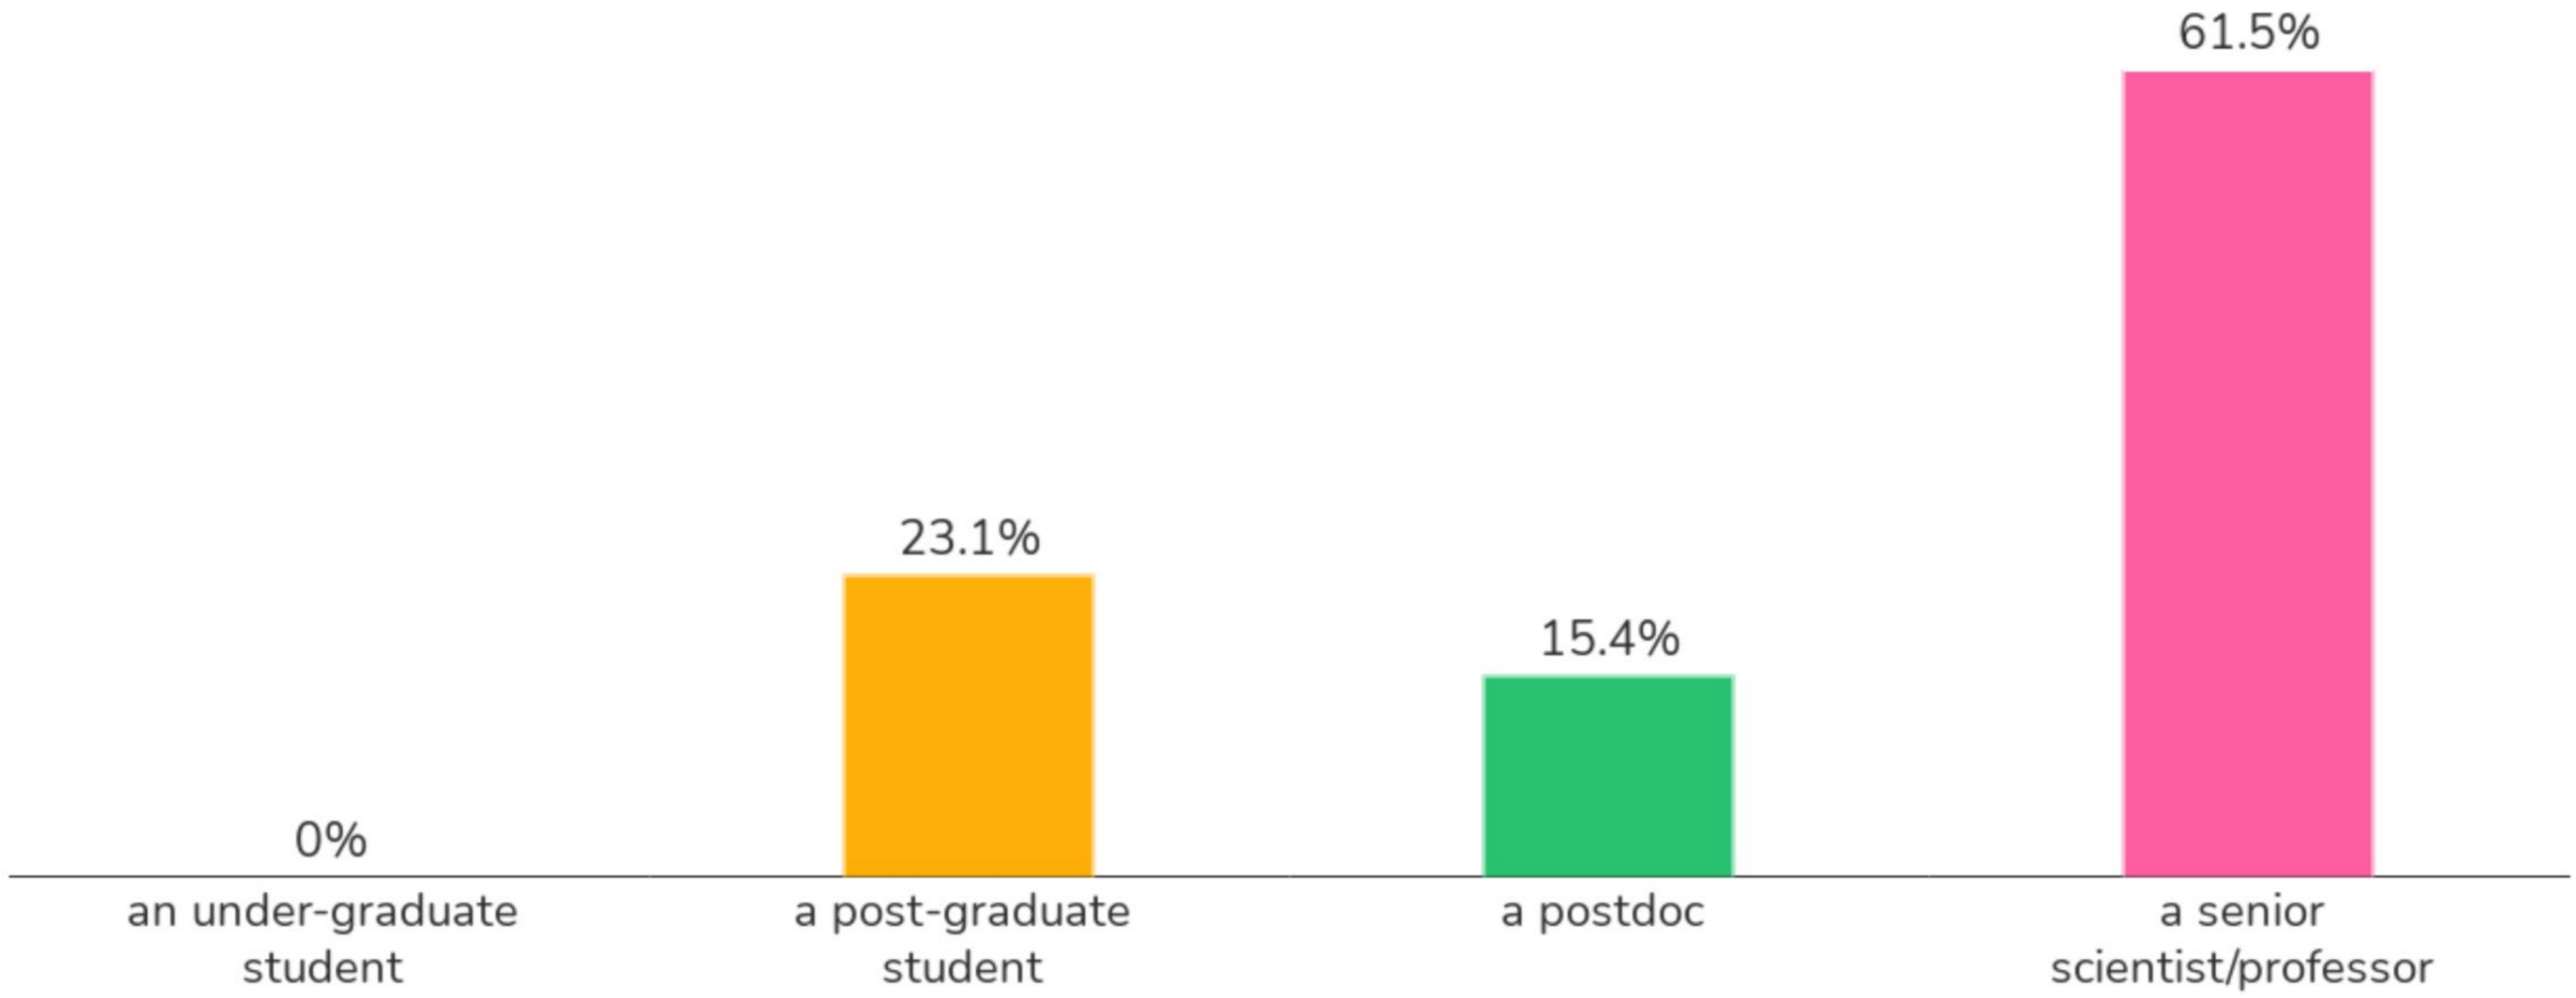

- We will ask you some questions.
- Either follow in your browser...
- or use the QR code on the next slide to follow on your phone.
- All answers are given anonymously!
- Thank you!

# Are you

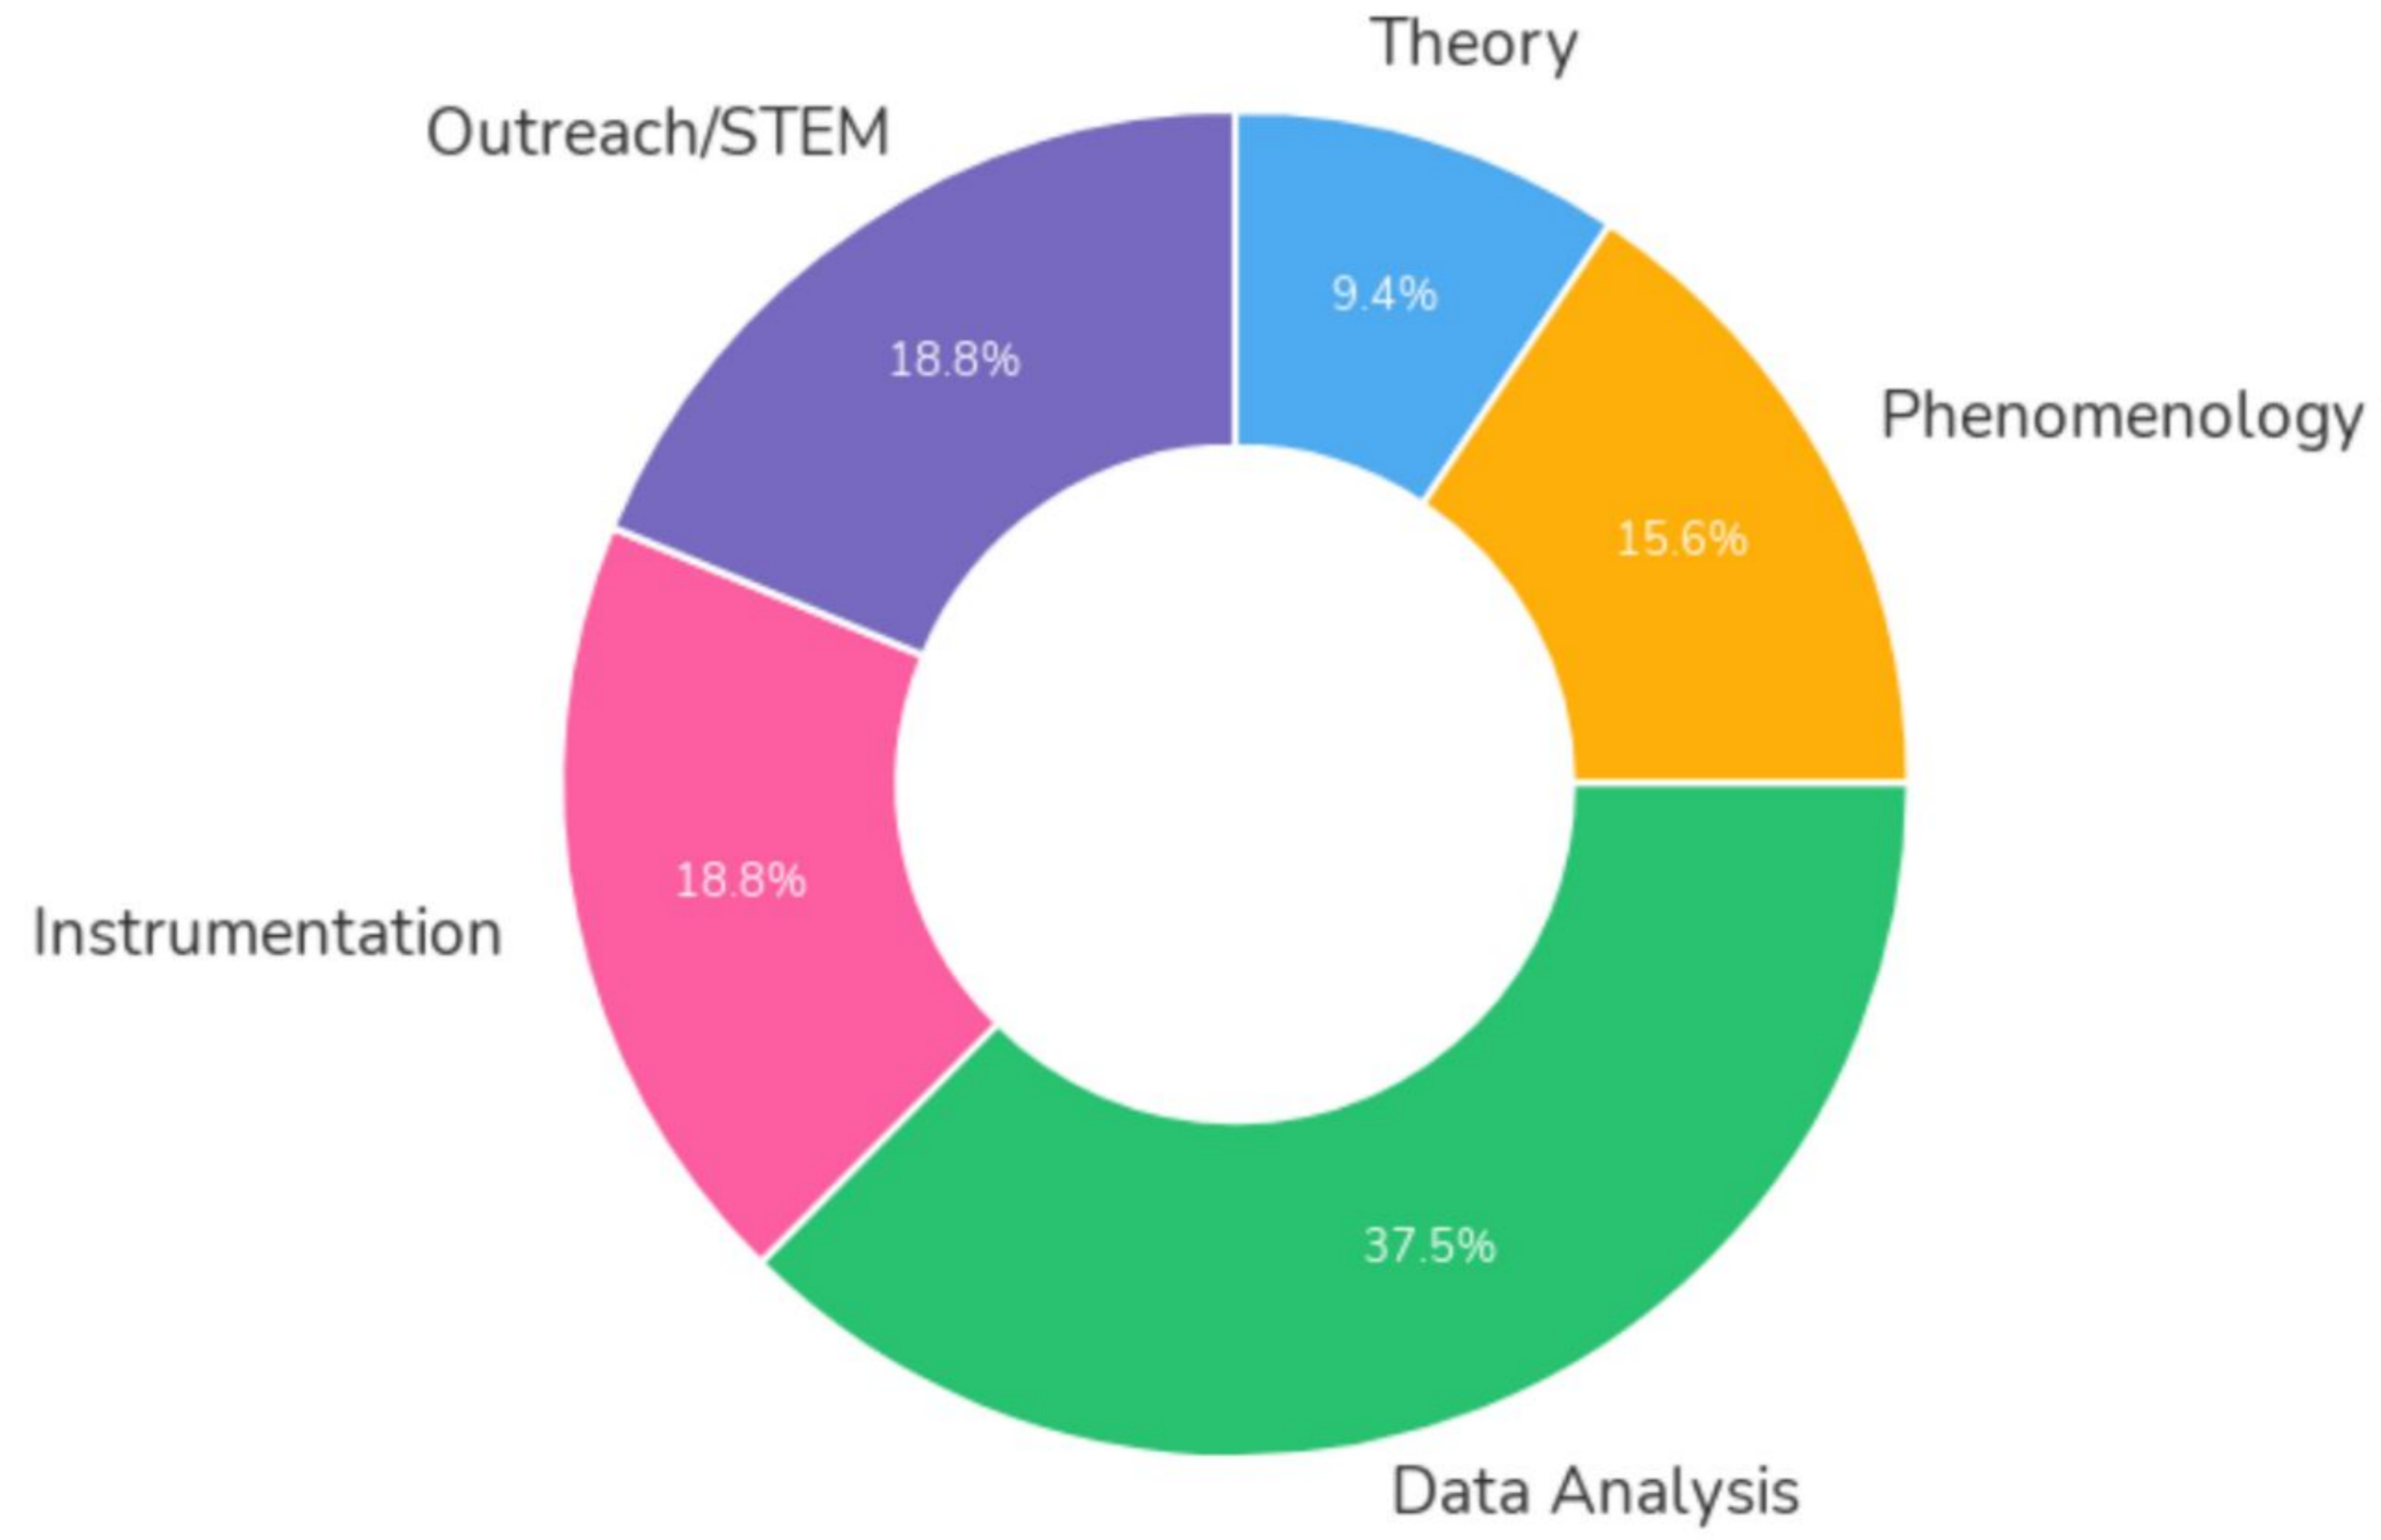

# You are attending the workshop because you

# Have you worked on ILC related topics in the past or are you currently working on an ILC topic?

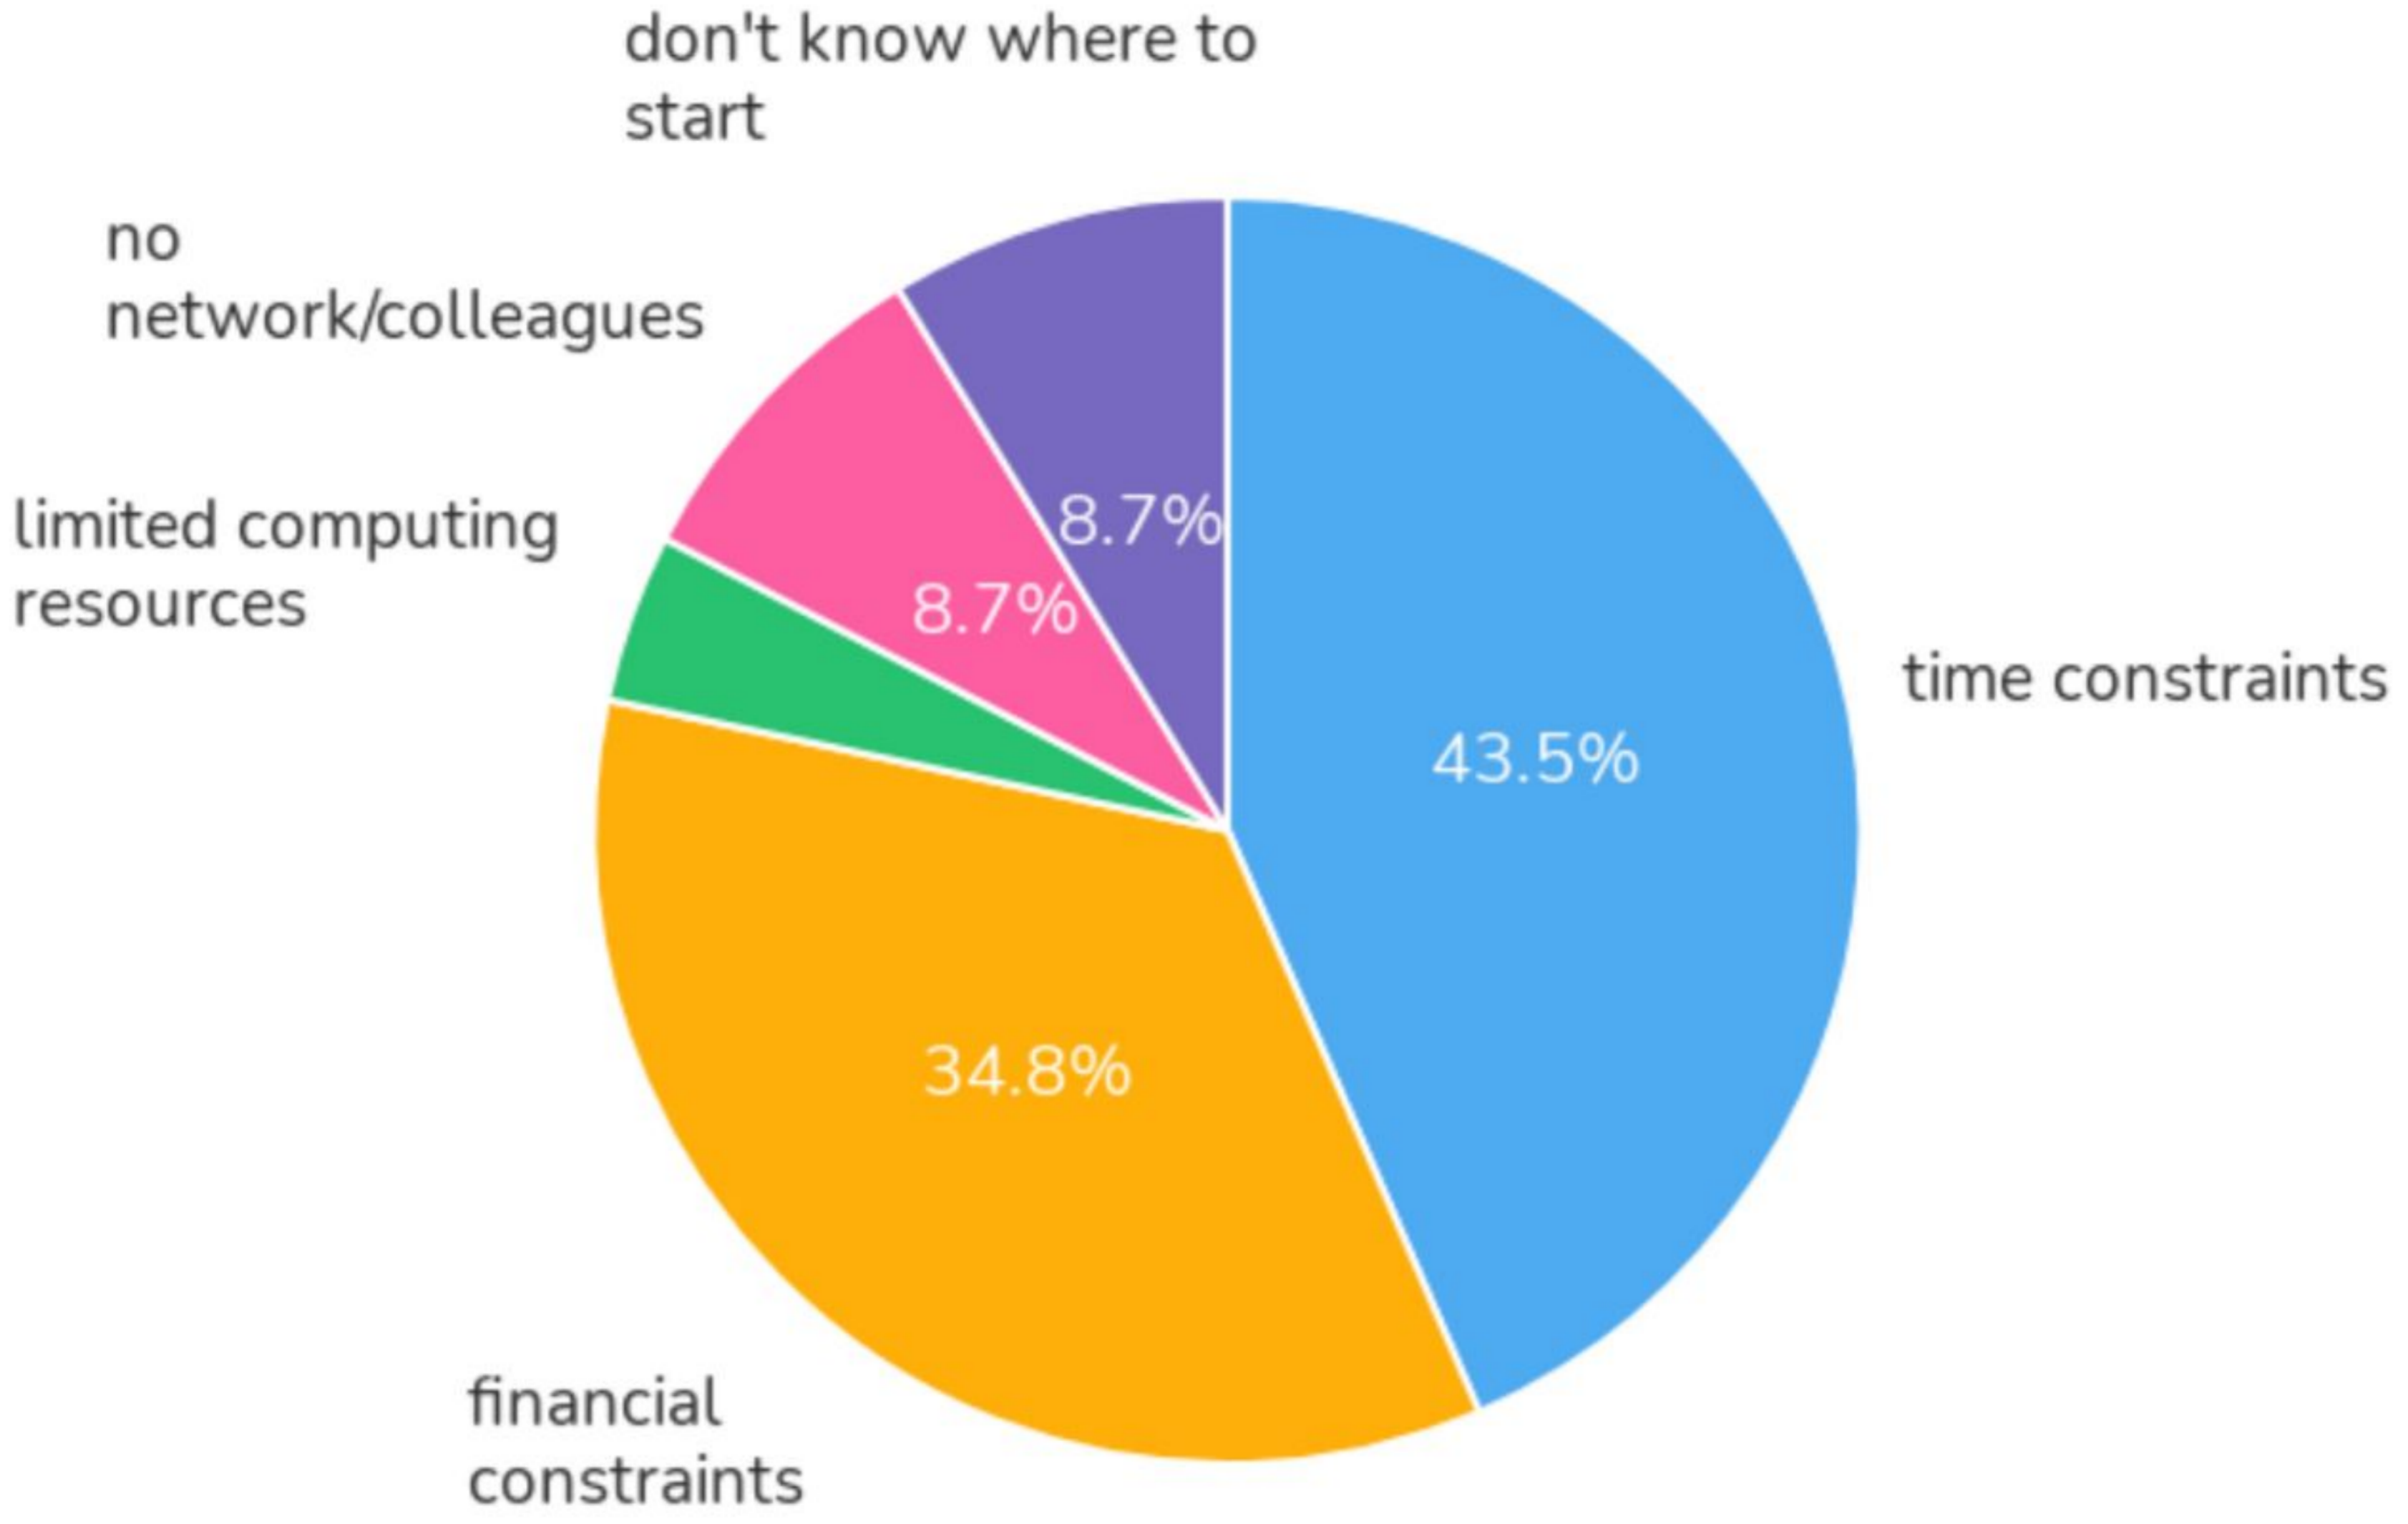

# You are interested in...

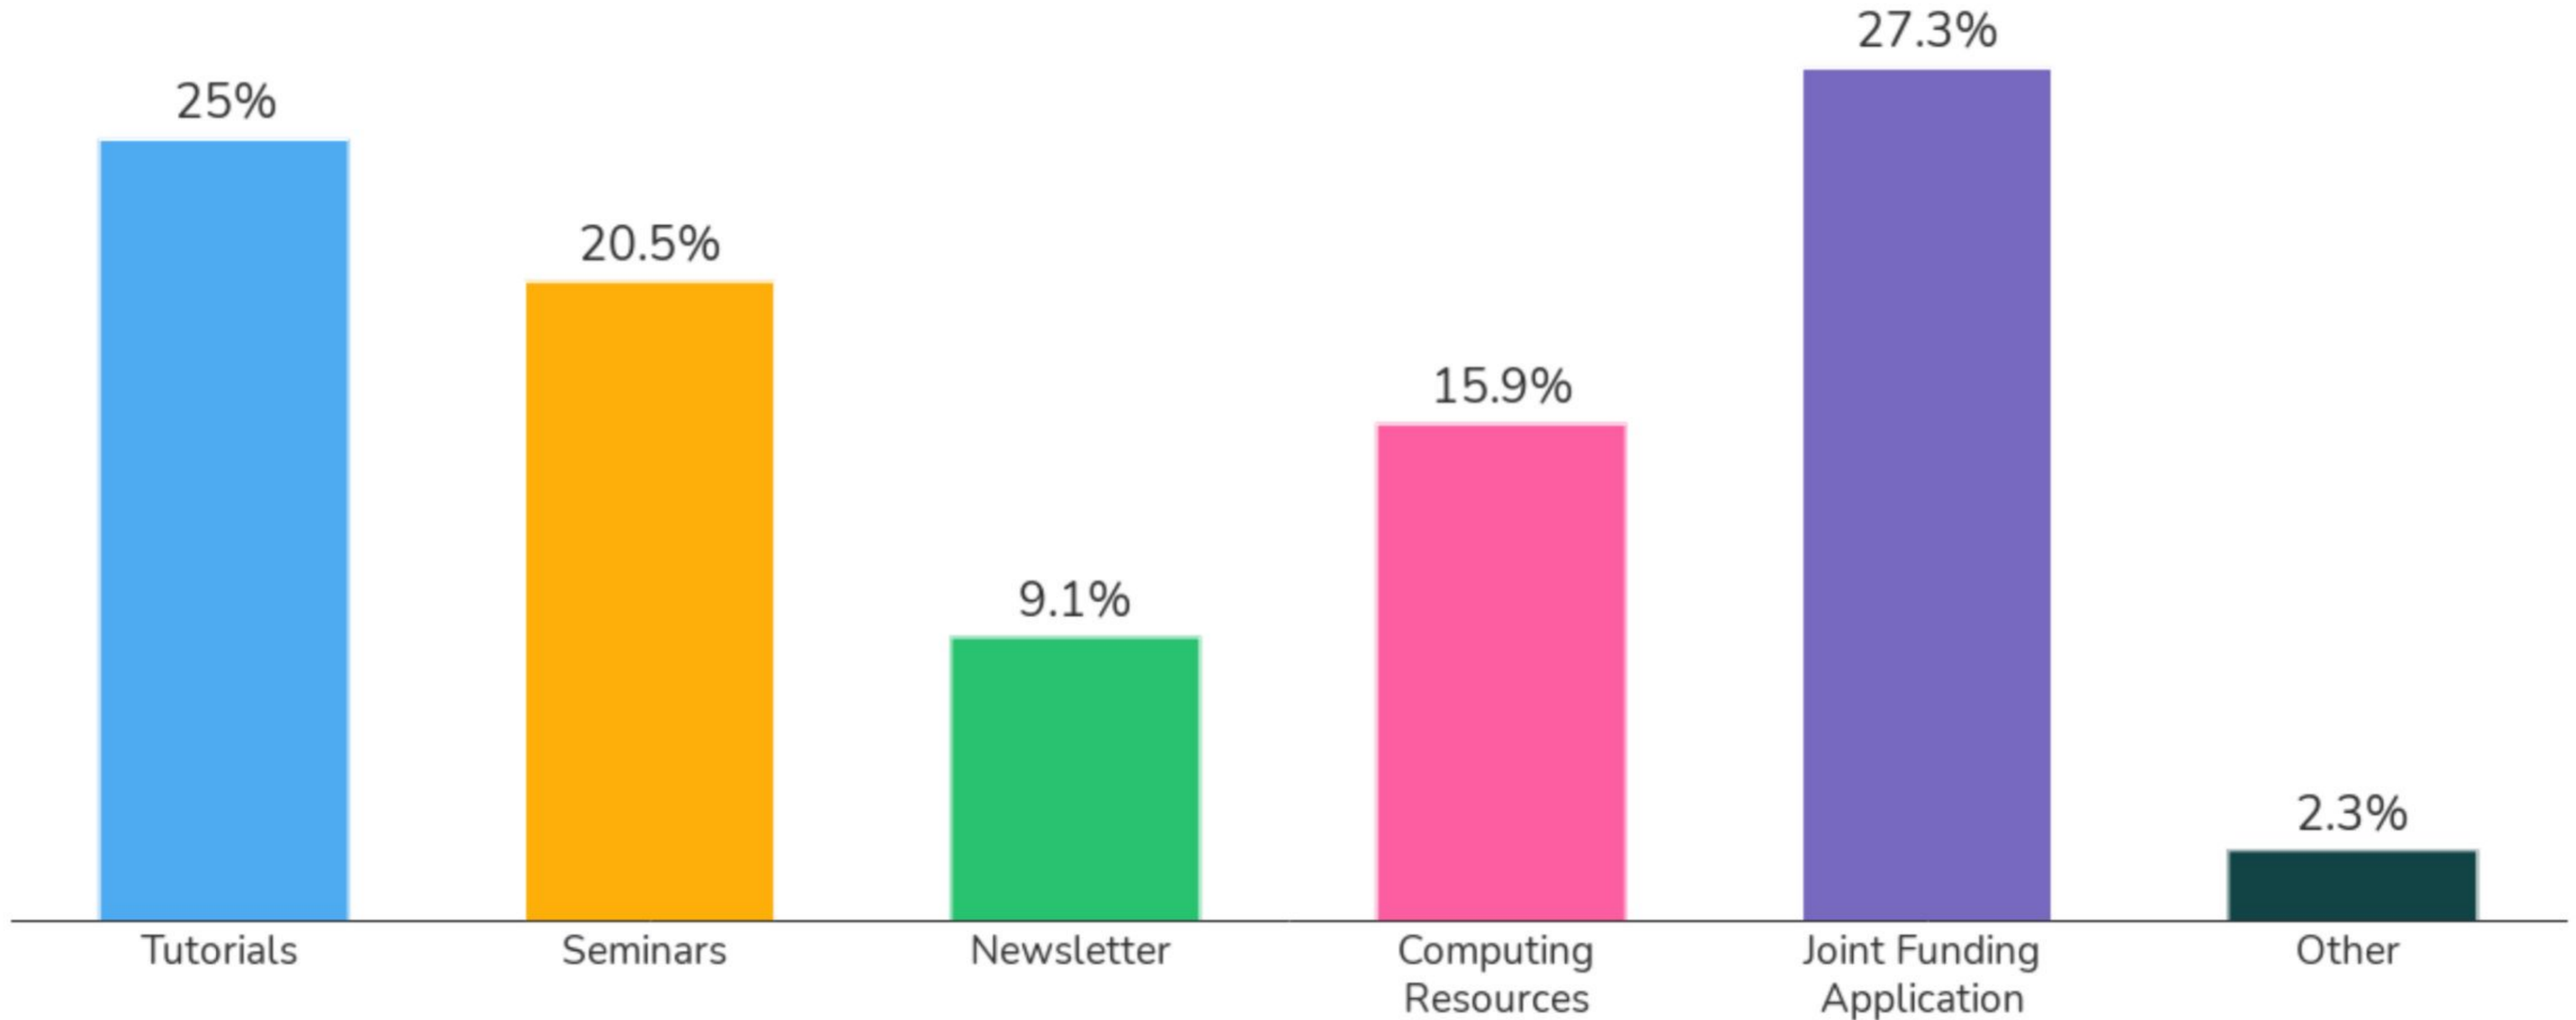

# What do you consider to be the biggest challenge for you to contribute to ILC studies?

# How could BCLC help overcome these challenges?

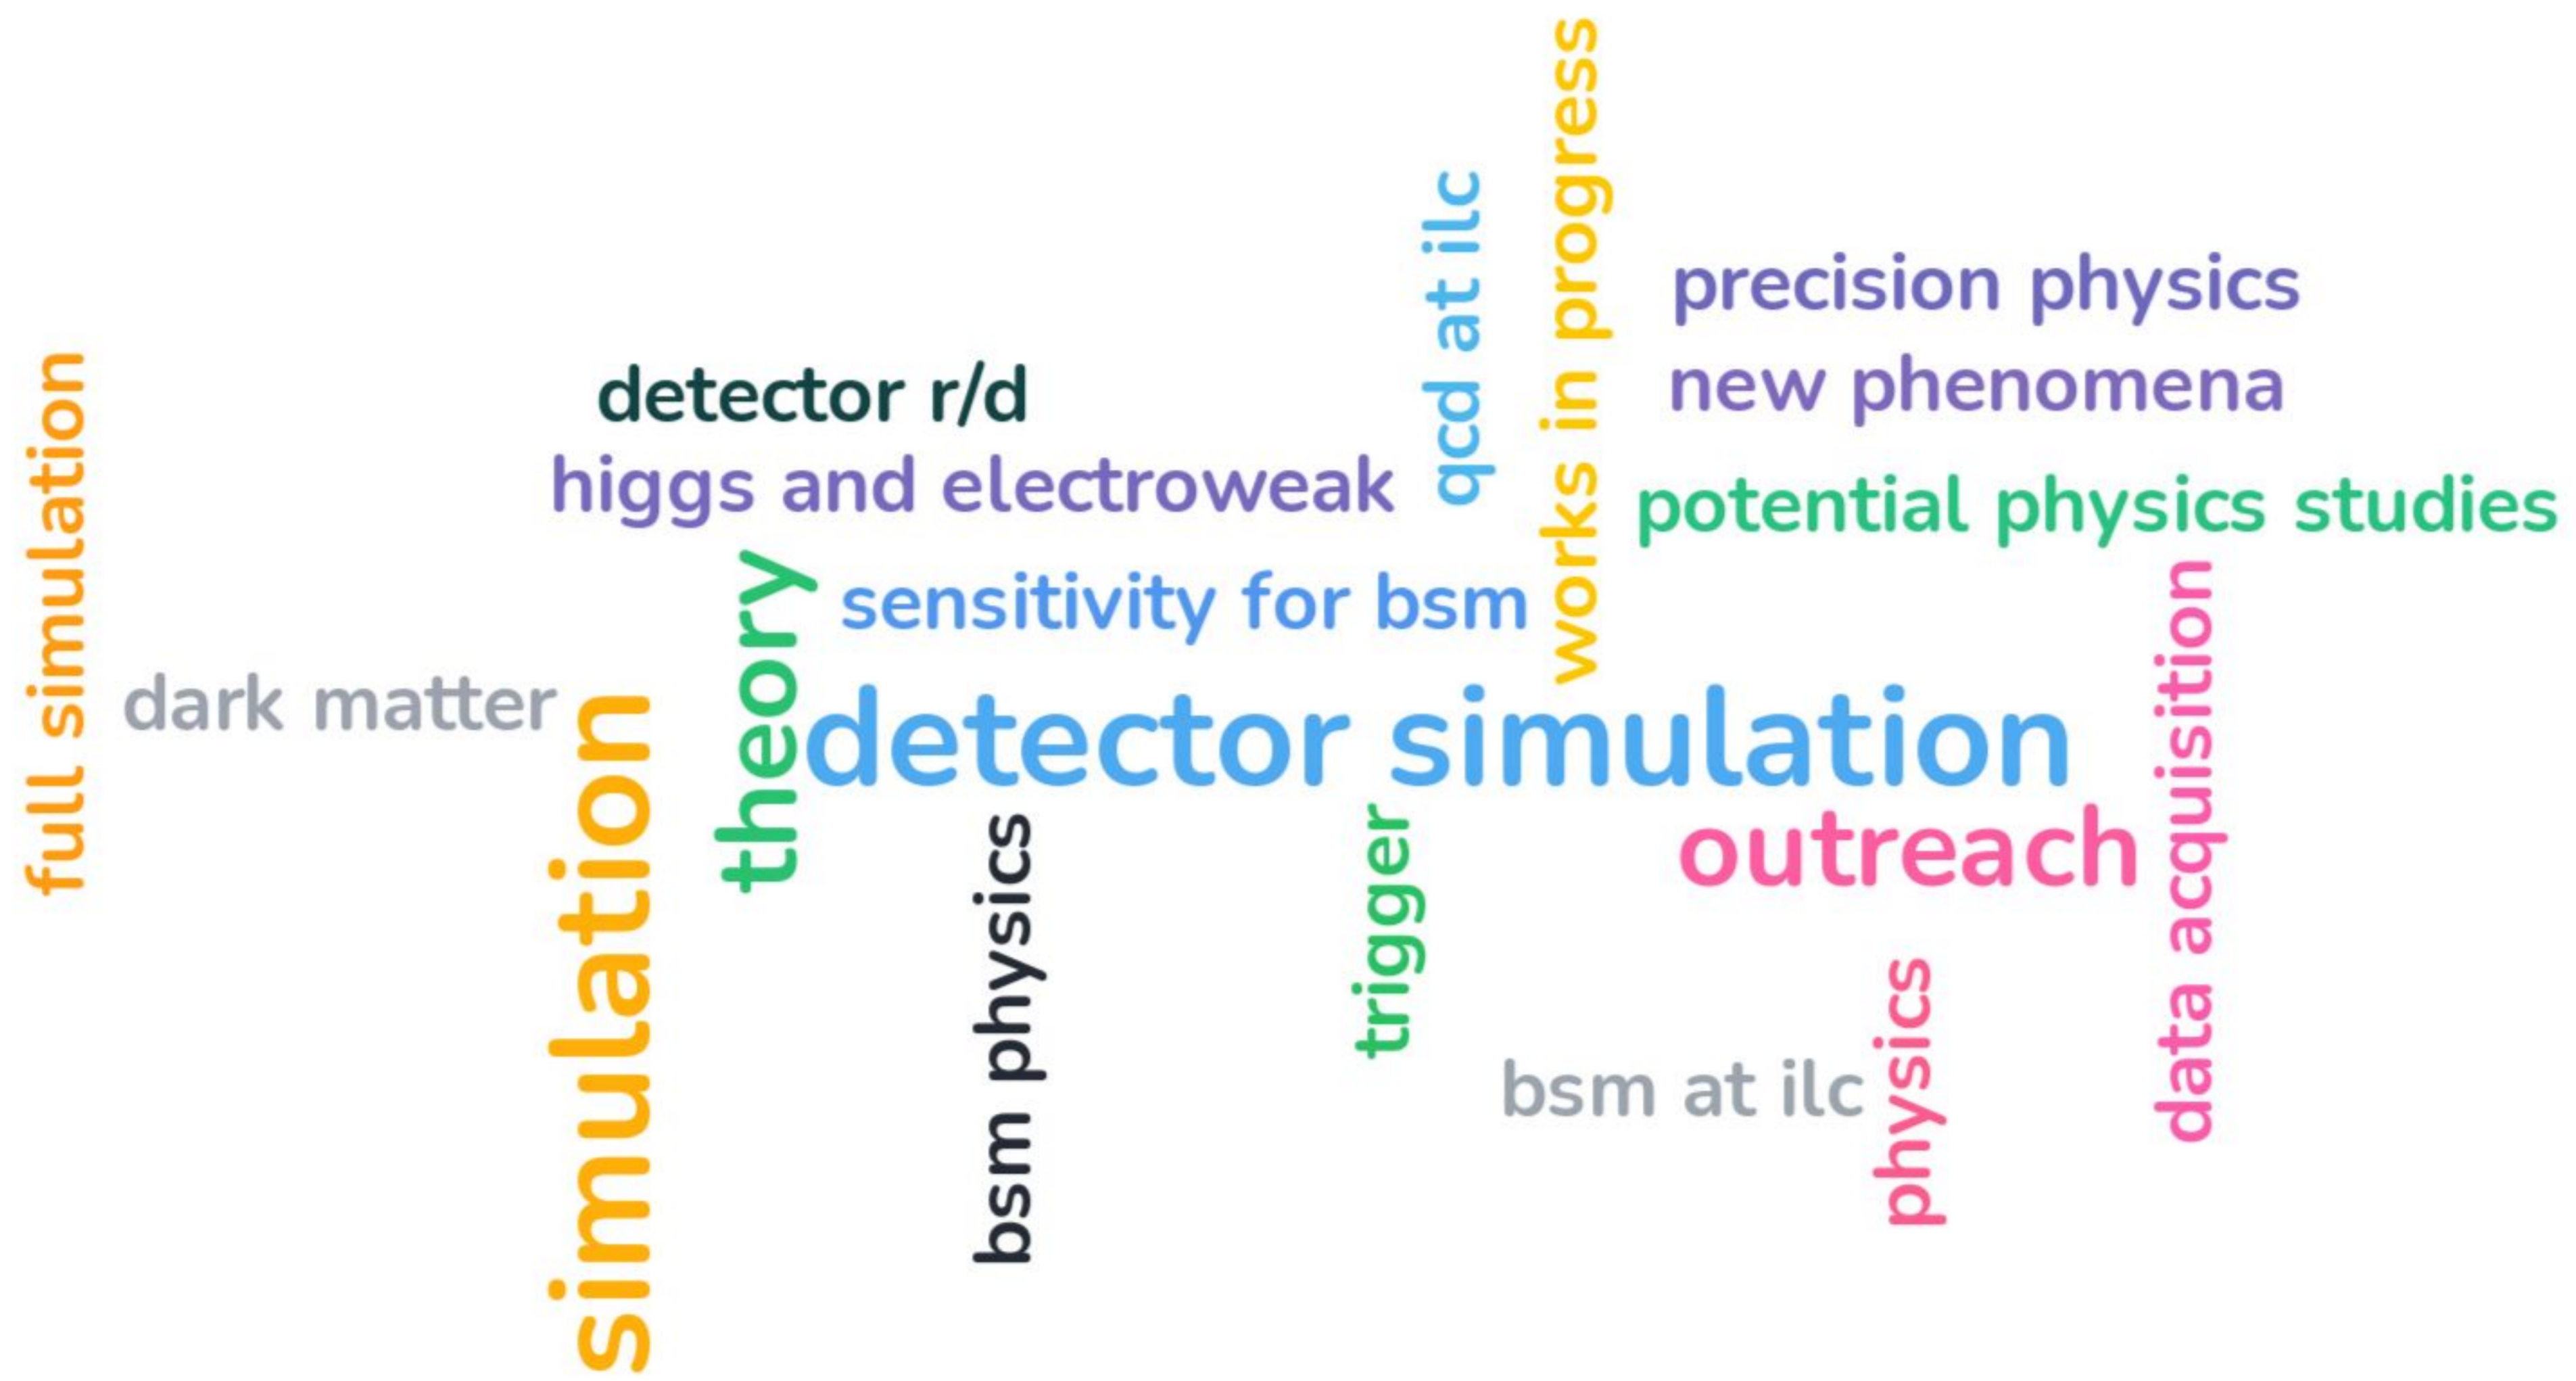

If you just checked 'other', please specify...

study topics  
dark matter  
getting more students  
detector r/d  
none  
higgs and electroweak

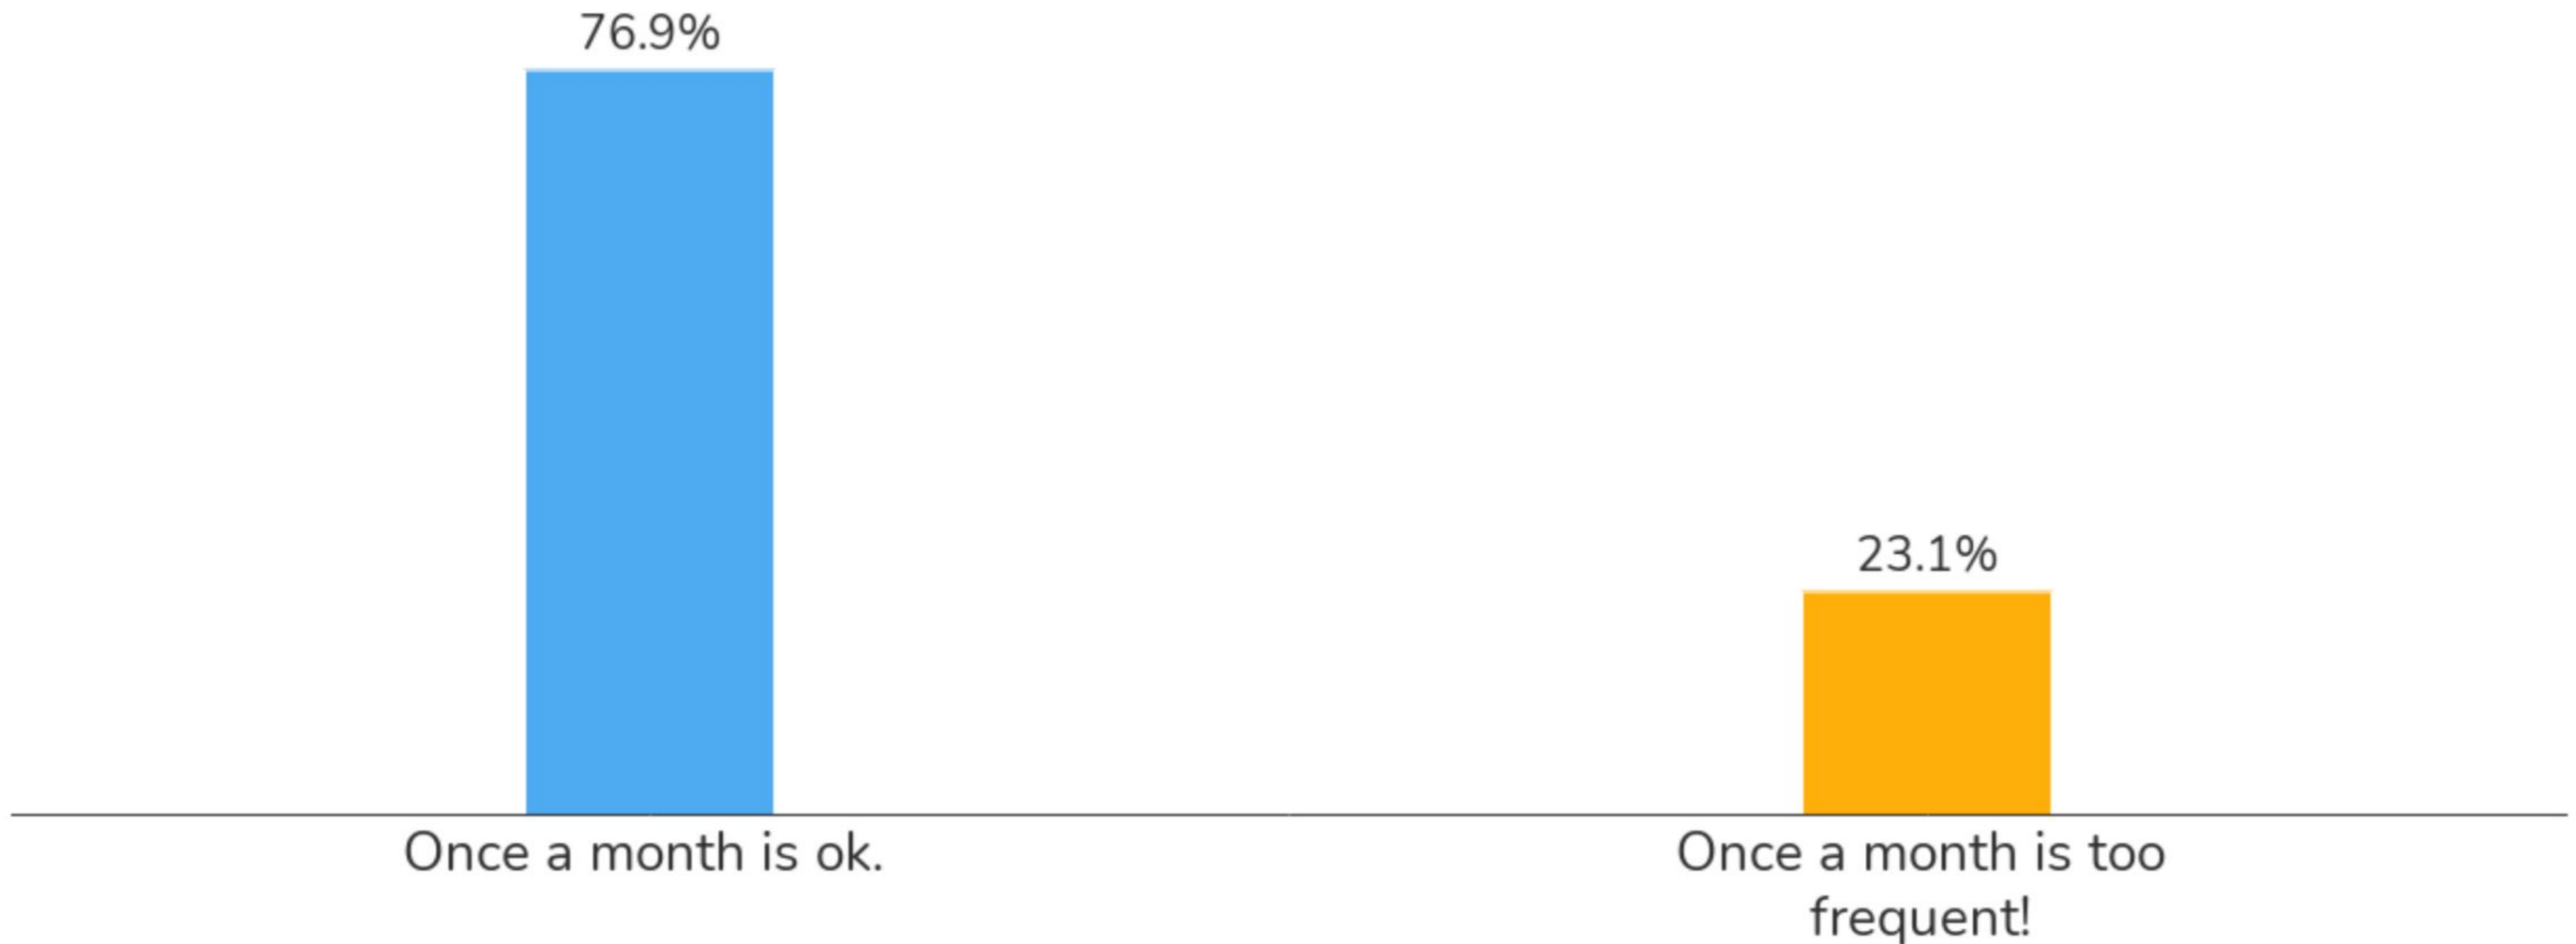

# What topics would you like to see in future BCLC seminars?

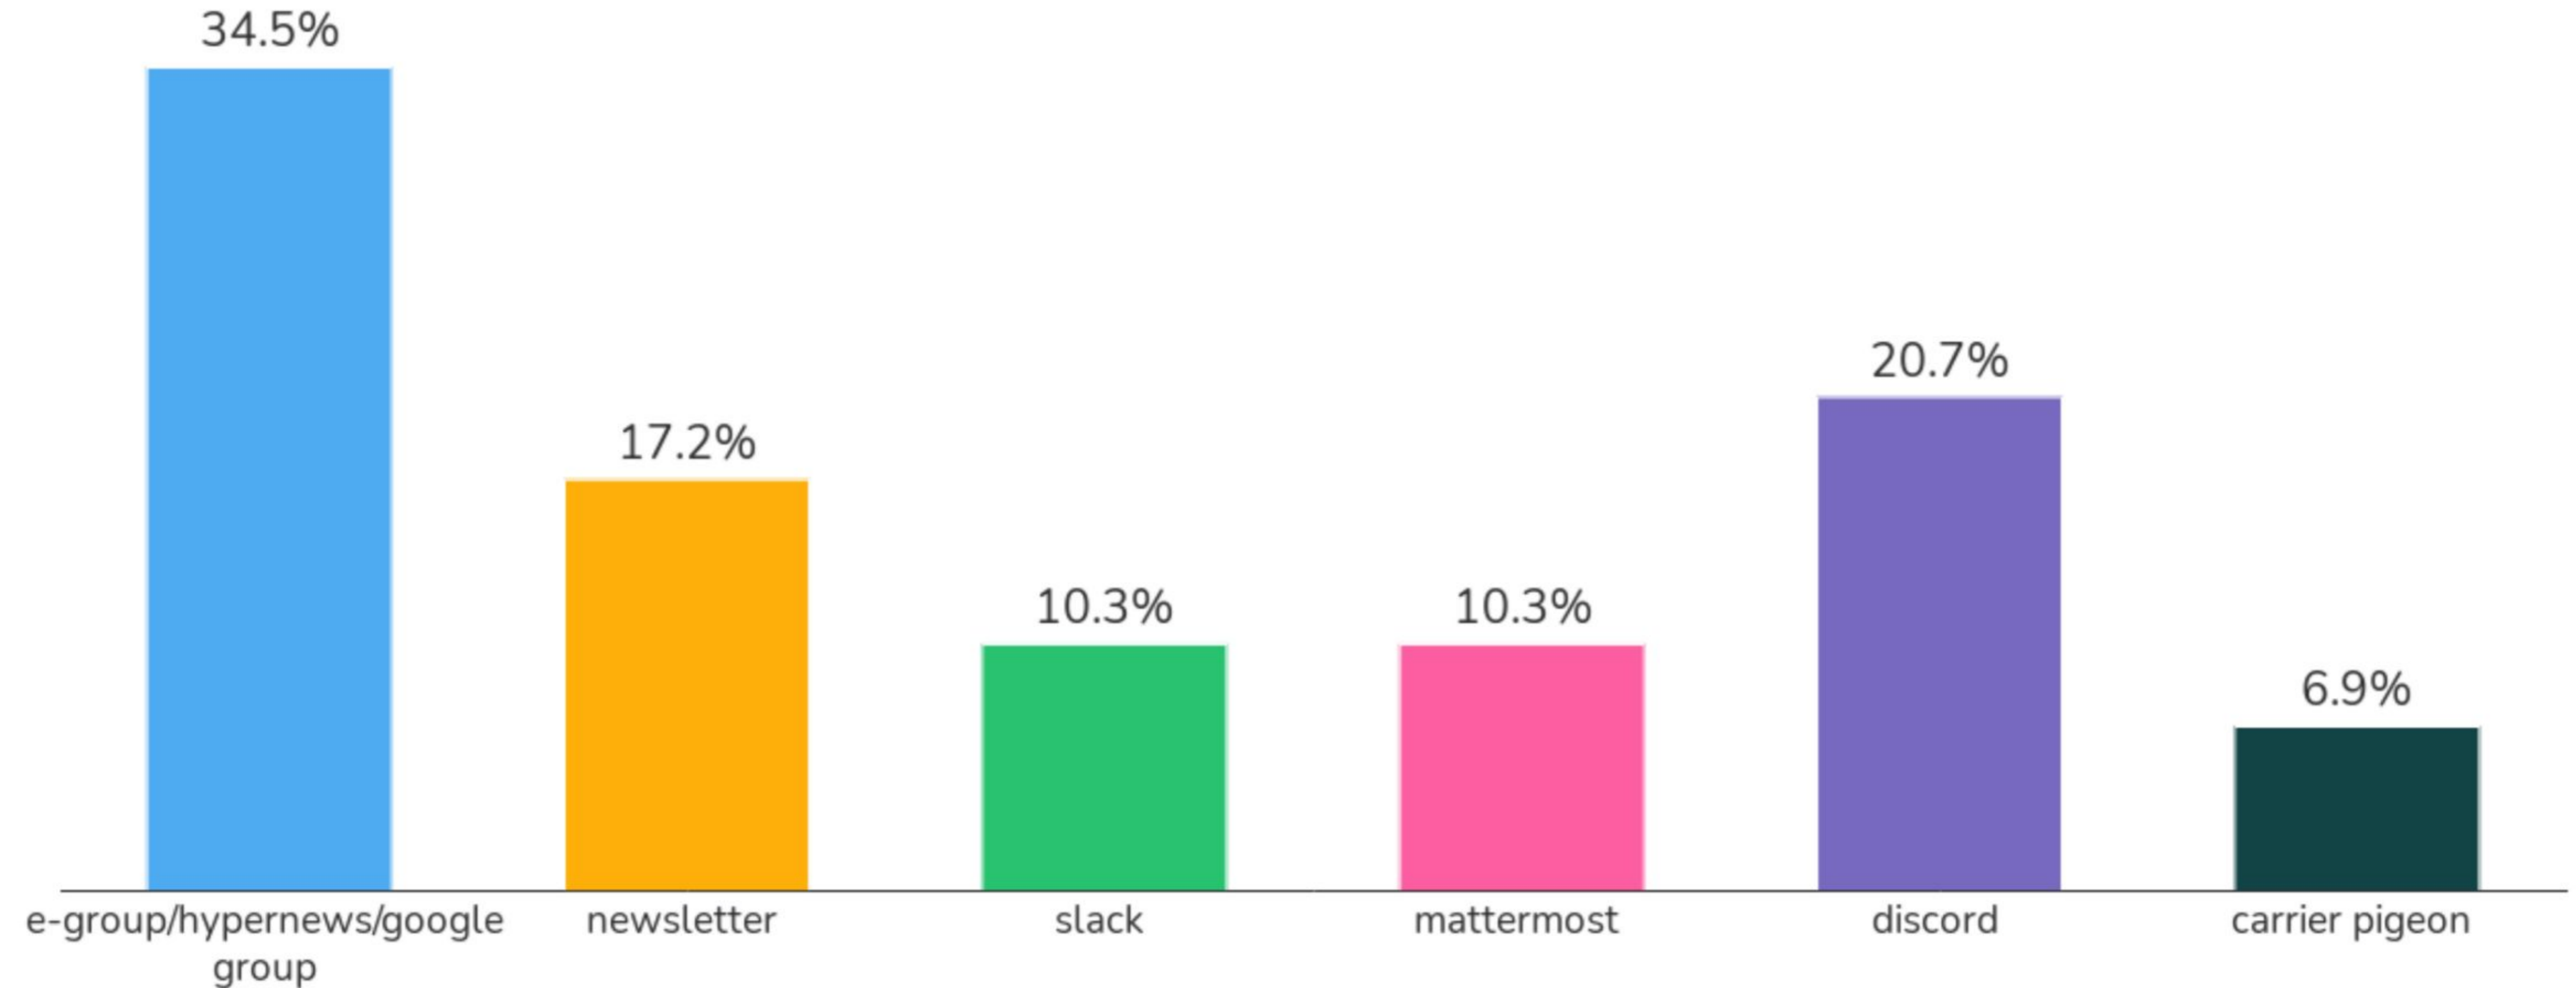

We are thinking about have regular BCLC meetings (monthly, synced with ILC meetings). Would you be interested or is that too frequent?

# What are your preferred ways of being updated?

# Do you have questions for the WG3 spokespeople already before their presentation?

no

no

What is the best case scenario schedule for an ILC lab.?

Are there physics studies regarding new physics at ILC?

Are there already dedicated computing resources for LC studies?

What is the physics landscape in terms of BSM studies for the ILC? Are there any preferred models that are being adopted for studies?

Is there a concrete date for ILC construction to start?

no

No

# Do you have questions for the WG3 spokespeople already before their presentation?

the national organization will be done like LHC style?

Is there a synergy or idea sharing with CLIC or FCC-ee studies?
