

Session Program

12-24 Aug 2018

XIV-th International School-Conference "Actual Problems of Microworld Physics"

Talks in Russian

Belarus, Grodno region
Sanatorium "Ozerny", 231753, Grodno region, p/o Ozery, Belarus Hotel website: [http://ozerny.by/
glavnaya_en/](http://ozerny.by/glavnaya_en/)

Wednesday 15 August

15:50

Talks in Russian

Session |

Location: Belarus, Grodno region, Sanatorium "Ozerny", 231753, Grodno region, p/o Ozery, Belarus Hotel website: http://ozerny.by/glavnaya_en/

15:50-16:35

The MEG Experiment. Search For Physics Beyond The Standard Model**Speaker**

Nikolai Kuchinskiy

16:35-17:25

The Size Seems to Matter or Where Lies the Asymptopia**Speaker**

Vladimir Petrov

17:25-18:00

Alternative way to understand the unexpected results of the JLab polarization experiments to measure the Sachs form factors ratio**Speaker**

Mikhail Galynskii

18:00

Monday 20 August

16:50

Talks in Russian

Session |

Location: Belarus, Grodno region, Sanatorium "Ozerny", 231753, Grodno region, p/o Ozery, Belarus Hotel website: http://ozerny.by/glavnaya_en/

16:50–17:40

High-strain-rate impact hydroforming (adaptive, versatile sheet forming technology) for producing accelerator cavities

Speaker

Artur Pakrouski

17:40

Wednesday 22 August

17:15

Talks in Russian

Session |

Location: Belarus, Grodno region, Sanatorium "Ozerny", 231753, Grodno region, p/o Ozery, Belarus Hotel website: http://ozerny.by/glavnaya_en/

17:45

17:15-17:40

Radon in the environment on the territory of Grodno region**Speakers**

Igor Zhuk, T.G. Leontieva, A.A. Safronova, A.A. Kruk, K.V. Husak, J.A. Lukashevich, L.L. Vasilevski

Thursday 23 August

15:50

Talks in Russian

Session |

Location: Belarus, Grodno region, Sanatorium "Ozerny", 231753, Grodno region, p/o Ozery, Belarus Hotel website: http://ozerny.by/glavnaya_en/

15:50-16:20

Высокоточные измерения амплитудных и векторных значений индукции магнитного поля на основе миниатюрных преобразователей Холла из гетероэпитаксиальных структур антимолибдита индия и типоряд датчиков физических величин на их основе

Speaker

Alexander Drapezo

16:20-16:50

Current work production for NICA

Speaker

Sergey Savitskiy

16:50
