

Session Program

22-27 Jul 2019

**FLASY2019: 8th Workshop on Flavor
Symmetries and Consequences in
Accelerators and Cosmology**

Afternoon session I

Wednesday 24 July

14:00

Afternoon session I: Session C.S.Kim

Session | **Location:** USTC, the 5F International Hall, Activity Center of East Campus

14:00–14:30

Highlights of Recent LHCb Results on Heavy Flavor and CPV

Speaker

Dr Liang Sun

14:30–15:00

Direct CP violation in charmed meson decays

Speaker

Hai-Yang Cheng

15:00–15:30

CP violation in charm

Speaker

Fu-Sheng Yu

15:30–16:00

Baryonic B decays

Speaker

Yu-Kuo Hsiao

16:00

Friday 26 July

13:50

Afternoon session I: Session Eung Jin Chun

Session | Location: USTC, the 5F International Hall, Activity Center of East Campus

13:50–14:20 The DAMPE mission and its first results

Speaker
Guangshun Huang

14:20–14:50 Status and prospects of CDEX experiments at CJPL

Speaker
Litao Yang

14:50–15:20
S3 symmetry with extended Higgs sectors: Dark matter and leptogenesis

Speaker
Myriam Mondragon

15:20–15:50 Probing dark matter through cosmic-ray anti-nuclei

Speaker
Yu-Feng Zhou

15:50
