

1st Mediterranean Conference on Higgs Physics

Contribution ID: **100**

Type: **not specified**

QCD background estimation search for top-antitop resonances search in the lepton plus jets final state using 140.5 fb⁻¹ of pp collisions at $\sqrt{s} = 13$ TeV with the ATLAS experiment at the Large Hadron Collider

Tuesday 24 September 2019 17:55 (10 minutes)

Presenter: NGAIR, Badr-Eddine (Universite Mohammed V (MA))
