

## Session Program

3-11 Jul 2025

## Annual Scientific Meeting & Harley Wood School

### *Galaxies*

University of Adelaide  
North Terrace Campus

## Wednesday 9 July

16:15

### Galaxies

**Session** | **Location:** University of Adelaide, North Terrace Campus

16:15–16:30

#### **The Fate of Globular Cluster Substructure: From Accretion to Diffusion in Galaxy Halos**

**Speaker**

Finn Pal

16:30–16:45

#### **The Dynamical and Morphological Transformation of Galaxies through Cosmic Time**

**Speaker**

Caroline Foster

16:45–17:00

#### **The intracluster light fraction across redshift and cluster environment**

**Speaker**

Louisa Canepa

17:00–17:15

#### **Exploring the Spatially Resolved Initial Mass Function in SAMI Star-Forming Galaxies**

**Speaker**

Diego Salvador Campe

17:15–17:30

#### **Abundance Differences of Dwarf Galaxy Streams and Fully Accreted Systems**

**Speaker**

Miles Pearson

17:30–17:45

#### **Disentangling the effects of ram pressure on cluster galaxies using multi-component Gaussian fitting.**

**Speaker**

Gabriella Quattropani

17:45
