

## Session Program

3-11 Jul 2025

## Annual Scientific Meeting & Harley Wood School

### *Planets*

University of Adelaide  
North Terrace Campus

# Wednesday 9 July

16:15

## Planets

**Session** | **Location:** University of Adelaide, North Terrace Campus

16:15–16:30

### **Magnetic fields on the brightest stars in the sky - the cool star BRITepol sample**

**Speaker**

Stephen Marsden

16:30–16:45

### **A Metal- and Volatile-Rich Comet-Like Tail from the Ultra-Hot Jupiter KELT-9b**

**Speaker**

Nicholas Borsato

16:45–17:00

### **The K2 & TESS Synergy: Uniting NASA's Planet Hunters**

**Speaker**

Erica Thygesen

17:00–17:15

### **The GLINT Instrument: High-contrast Imaging of Stellar Companions using Nulling Interferometry**

**Speaker**

Stephanie Rossini-Bryson

17:15–17:30

### **TASSIE: a TASmanian Search for Inclined Exoplanets**

**Speaker**

Thomas Plunkett

17:30–17:45

### **Gravitational Instability in Post-AGB Disks: Limits on Second-Generation Planet Formation**

**Speaker**

Ali Pourmand

17:45
