Wednesday Parallel II.B

Session | Location: Room B | Convener: Samuel Abreu

10:30–10:55    **Geometry and causality for efficient multiloop representations**

**Speaker**  
German Sborlini

11:00–11:25  
**Causal representation and numerical evaluation of multi-loop Feynman integrals**

**Speaker**  
Dr William J. Torres Bobadilla

11:30–11:55    **Local Unitarity and Infrared Safety**

**Speaker**  
Zeno Capatti

12:00–12:25  
**Numerical integration of one-loop integrals through local cancellation of threshold singularities**

**Speaker**  
Dario Kermanschah

12:25
