

# **Escuela de Programación para Investigación Científica - EPIC II**

**Monday 10 October 2022 - Friday 14 October 2022**

**Escuela Politécnica Nacional**

## **Scientific Programme**

The github page for the preliminary activities is the following:  
[https://github.com/ciencialatitud0/EPIC\\_2/tree/main/Day0](https://github.com/ciencialatitud0/EPIC_2/tree/main/Day0)

This directory contains instructions on how to install python and julia, and on how to set up jupyter notebooks and Google Colab with the different kernels and packages. There is also a pdf that has information on how to use git for beginners.

Please read the instructions carefully and test the notebooks so that you are ready for the tutorials. Also, don't forget to join the EPIC-2 Discord server and use your name for the displayed name. You can join with this link: <https://discord.gg/aFMuaWJb>

The Zoom link for all sessions is: <https://cedia.zoom.us/j/84308336452>

Please be online on time for all the sessions. Remember that tomorrow we start at 07h50 (UTC-5) with general guidelines and a brief introduction to EPIC 2.
