Escuela de Programación para Investigación Científica - EPIC III

Sunday 13 August 2023 - Friday 18 August 2023

Yachay Tech

Scientific Programme

The github page for the preliminary activities is the following: https://ciencialatitud0.github.io/EPIC_3/intro.html

This directory contains instructions on how to install python and julia, and on how to set up jupyter notebooks and Google Colab with the different kernels and packages. There is also a pdf that has information on how to use git for beginners.

Please read the instructions carefully and test the notebooks so that you are ready for the tutorials. Also, don't forget to join the EPIC-2 Discord server and use your name for the displayed name. You can join with this link: https://discord.gg/aFMuaWJb

The Zoom link for all sessions is: https://cedia.zoom.us/j/84308336452

Please be online on time for all the sessions. Remember that tomorrow we start at 07h50 (UTC-5) with general guidelines and a brief introduction to EPIC 3.
