

Escuela de Programación para Investigación Científica - EPIC IV

Sunday 21 July 2024 - Friday 26 July 2024

UIDE

Scientific Programme

The github page for the preliminary activities is the following:
https://ciencialatitud0.github.io/EPIC_4

This directory contains instructions on how to install python and julia, and on how to set up jupyter notebooks and Google Colab with the different kernels and packages. There is also a pdf that has information on how to use git for beginners.

Please read the instructions carefully and test the notebooks so that you are ready for the tutorials. Also, don't forget to join the EPIC-2 Discord server and use your name for the displayed name. You can join with this link: <https://discord.gg/aFMuaWJb>

The Zoom link for all sessions is: <https://cedia.zoom.us/j/84308336452>

Please be online on time for all the sessions. Remember that tomorrow we start at 07h50 (UTC-5) with general guidelines and a brief introduction to EPIC 3.
