

**Session Program**

**5-7 Jun 2023**

**Path to Dark Sector Discoveries at Neutrino  
Experiments**

***Monday***

# Monday 5 June

08:50

## Monday

**Session** | **Location:** Lori Student Center, Colorado State University Room 300

08:50–09:00

### Welcome

**Speaker**

Joshua Berger

09:00–09:45

### Simplified Frameworks for Long-Lived Particles at Neutrino Facilities

**Speaker**

Brian Batell

09:45–10:30

### Probing new physics at DUNE operating in a beam-dump mode

**Speaker**

Zahra Tabrizi

10:30

11:00

## Monday

**Session** | **Location:** Lori Student Center, Colorado State University Room 300

11:00–11:45

### Non-Oscillation Theory at NDS

**Speaker**

Kevin Kelly

11:45–12:30

### MicroBooNE BSM Results

**Speaker**

Daisy Kalra

12:30

14:00

## Monday

**Session** | **Location:** Lori Student Center, Colorado State University Room 300

14:00–14:45

### Triggering Non-Beam Physics at the DUNE Far Detector

**Speaker**

Joshua R Klein

14:45–15:30

### Non-Oscillation Searches at DUNE ND

**Speaker**

Wooyoung Jang

15:30

16:00

## Monday

**Session** | **Location:** Lori Student Center, Colorado State University Room 300

16:00–16:45

### Status of FNAL Computing

**Speaker**

Ms Meghna Bhattacharya

16:45–17:30

### Data Preservation

18:15

**Speaker**

Tom Junk

17:30–18:15

**DAMSA Experiment**

**Speaker**

Prof. Jae Yu
