

**Session Program**

**5 January 2021 to 5 March 2021**

**HIM archive 2004-10 - 2022-08**

***Invited Talks - APCTP Workshop : Frontiers in  
Nuclear and Neutrino Physics (Pohang)***

## Thursday 7 January

09:00

### Invited Talks - APCTP Workshop : Frontiers in Nuclear and Neutrino Physics (Pohang)

**Session**

09:00-09:20

**Physics Opportunities with heavy quark system at FAIR, Su Houn Lee (Yonsei Univ.)**

09:20-09:40

**Current Heavy Ion Physics Experiments and Results Survey, In-Kwon Yoo (Pusan National Univ.)**

09:40-10:00

**Prospects of the FAIR project at GSI, Byungsik Hong (Korea Univ.)**

10:00-10:20

**HIC : ALICE, The Wonderland (more or less personal view), Ghi Ryang Shin (Andong National Univ.)**

10:20-10:40

**Jet finding in the CMS Heavy Ion Programs, Inkyu Park (Univ. of Seoul)**

10:40-11:00

**Study of strong interaction at the LHC, Youngil Kwon (Yousei Univ.)**

11:00
