

Session Program

5 January 2021 to 5 March 2021

HIM archive 2004-10 - 2022-08

2007 KPS@Heavy Ion Physics Focus Session

Thursday 7 January

11:00

2007 KPS@Heavy Ion Physics Focus Session

Session

11:00-11:20 **The Color Glass Condensate and Glasma, L. McLerran (BNL)**

11:20-11:40

Ultrarelativistic Nucleus-Nucleus Collisions : Status and Perspectives, Federico Antinori (INFN padova & CERN)

11:40-12:00

Single μ production at forward rapidity by PHENIX, Youngil Kwon (Yousei Univ.)

12:00-12:20

Lattice QCD in Finite Temperature / Density, Seyong Kim (Sejong Univ.)

12:20
