

Session Program

5 January 2021 to 5 March 2021

HIM archive 2004-10 - 2022-08

HIM2018@Korea University(2018-07)

Monday 18 January

10:00

HIM2018@Korea University(2018-07)

Session

10:00-10:20

Studying the Quark Gluon Plasma with heavy flavors, Gian Michele Innocenti (CERN/MIT)

10:20-10:40

Quarkonium Production in heavy-ion collisions at LHC, Dongho Moon (Chonnam Nat'l University)

10:40-11:00

Electroweak bosons in Heavy Ion Collisions, Adre Govinda Stahl Leiton (LLR)

11:00-11:20

Hadron production in heavy ion collisions, Francesca Bellini (CERN)

11:20-11:40

Soft QCD measurements with ALICE, Beomkyu Kim (Inha University)

11:40
