Session

10:00-10:20

Study of heavy quark production in small collision systems, Sanghoon Lim (Pusan Nat. Univ)

10:20-10:40

Nuclear dependence of transverse single-spin asymmetry in p+p, p+A collisions, Jeongsu Bok (Inha Univ.)

10:40-11:00

QCD EoS in medium via effective models, Seung il Nam (Pukyong Nat. Univ.)

11:00-11:20

Search of QCD phase transitions at finite density with the Canonical approach, Masayuki Wakayama (CENuM/Pukyong Nat. Univ.)

11:20-11:40

Resonance Production in Heavy Ion Collisions, In-Kwon Yoo (Pusan Nat. Univ.)

11:40
