***Talks***

, B103

## Friday 8 March

13:00

### Talks

**Session** | **Location:** , B103

13:00–13:50

#### Initial conditions for hydrodynamics in small systems

**Speaker**

Giorgio Torrieri

13:50–14:30

#### TBA

**Speaker**

Jihye Song

14:30–15:00

#### Lambda polarization in heavy ion collision

**Speaker**

Haesom Sung

15:00

15:30

### Talks

**Session** | **Location:** , B103

15:30–16:20

#### TBA

**Speaker**

Beomkyu Kim

16:20–17:00

#### Phi meson and E-16

**Speaker**

Dr Philipp Gubler

17:00–17:30

#### K1 (1270) production in pp collisions with ALICE

**Speaker**

SuJeong Ji

17:30

## Saturday 9 March

10:00

### Talks

**Session** | **Location:** , B103

10:00–10:30

#### Alpha cluster measurement at RAON

**Speaker**

Yechan cheon

10:30–11:00

#### TBA

**Speaker**

Seungju Lee

11:00–11:30

#### Multiplicity-dependent $\rho(770)$ production in pp collisions with ALICE

**Speaker**

Hyunji Lim

11:30–12:00

#### Correlation measurements of Heavy flavor and Quarkonia in CMS

**Speaker**

Soohwan Lee

12:00
