

Session Program

14-16 Jun 2023

Nonperturbative QFT in the complex momentum space

Wednesday Afternoon Session

Maynooth University, Physics and Chemistry Theatre (PCT)

Wednesday 14 June

14:00

Wednesday Afternoon Session: Complex Singularities II

Session | **Location:** Maynooth University, Physics and Chemistry Theatre (PCT)

14:00–14:45

Are the Gluon Complex Poles Real?

Speaker

Fabio Siringo

14:45–15:30

Non-perturbative characteristics of spectral functions at finite temperature

Speaker

Peter Lowdon

15:30
