

Join the American
Physical Society

We are organizations of ~3,000 US Particle and Accelerator Physicists within the American Physical Society.

White paper: update of <https://www.usparticlephysics.org/2023-p5-report/>

How can I join? <https://www.aps.org/membership/join> (discounts for students/early career - remember to add DPF and DPB!)

Add DPF to an
existing membership

Outline for this meeting

- There will be **4 sessions** with breaks.
- Talks will be given mainly by efforts that are planning to submit white papers. If your effort did not get a chance to speak, contact dpfstrategy@fnal.gov and we can add slides/papers so that people can read them later.
- Each session will have a **live document** where people can record questions and comments. Links to the live documents have been sent to registered participants. We will also be monitoring the chat for technical issues.
- There is limited time for questions after talks. Please raise your zoom hand and, if there is not time to answer, please add your question to the live document.
- This meeting is sponsored by the APS Divisions of Physics of Beams and of Particles and Fields and subject to the [APS Code of Conduct](#)

APS Core values

Scientific Method

We rely on **scientific methods** as the foundation for physics and its applications; we recognize the evolution of scientific inquiry.

Trust, Integrity, and Ethical Conduct

We act **honestly and ethically** to ensure integrity in physics and across our community.

Equity, Diversity, and Respect

We champion a **culture of mutual respect, inclusion, access, and belonging**; we embrace diversity in physics.

Collaboration

We engage in **open and respectful exchange** to accelerate scientific discoveries and solve global challenges; partnerships and collaborations make us stronger.

Education and Learning

We **promote education** that nurtures curiosity, sparks innovation, and supports lifelong learning and discovery.

Speaking Out

We **listen, promote our core values, and speak out on issues** where scientific evidence or expertise can inform the public or benefit society.

Expectations

The APS Code of Conduct expects all meeting attendees to avoid

- Harassment, discrimination, bullying, and abuse of power
- Abusive language and/or behavior of any kind
- Retaliation, including intimidating, threatening, or coercing others
- Disruptive behavior during meetings or other events

In the event of a violation of the COC, participants may contact the [organizers](#) or, in the case of serious violations, the APS

- Online: [Ethics Hotline](#), a third-party confidential platform
- Ethics Hotline: [Toll-free phone number](#)
- Email: [APS Ethics team](#) or [APS Head of Ethics](#)

DPF/DPB White Paper

- Our fields went through an extensive planning process with [Snowmass 2021](#) and the P5 [report](#).
- We plan a short white paper that reiterates the relevant P5 recommendations but also highlights progress and proposals presented here and through white papers.
- We ask that US groups preparing white papers keep us informed (dpfstrategy@fnal.gov)
- We ask that participants take advantage of the live documents to provide us with written comments
