

Session Program

27-30 May 2025

**NEAT: Neutrino Experiment and Theory
(Workshop)**

Astro

Thursday 29 May

16:00

Astro

Session

16:00–16:40

Searching for Ultra-Long-Baseline Oscillations In IceCube Data

Speaker

Carlos A. Argüelles-Delgado

16:40–17:20

Astrophysical neutrinos and its flavor/helicity asymmetry at IceCube

Speaker

Ting Cheng

17:20
