

Session Program

26 August 2025 to 6 September 2025

BUSSTEPP 2025

Lecture

University of Nottingham

Tuesday 26 August

09:00

Lecture: Phenomenology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Cosmology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Phenomenology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Wednesday 27 August

09:00

Lecture: Phenomenology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Cosmology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

11:30

Lecture: AdS/CFT

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

12:30

14:00

Lecture: Phenomenology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Thursday 28 August

09:00

Lecture: AdS/CFT

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Beyond the Standard Model

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: AdS/CFT

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Friday 29 August

09:00

Lecture: AdS/CFT

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Beyond the Standard Model

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Cosmology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Saturday 30 August

09:00

Lecture: Beyond the Standard Model

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Cosmology

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

11:30

Lecture: Beyond the Standard Model

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

12:30

Monday 1 September

09:00

Lecture: Lattice Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Modern QFT for Real-World Gravity

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Lattice Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Tuesday 2 September

09:00

Lecture: Lattice Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Modern QFT for Real-World Gravity

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Lattice Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Wednesday 3 September

09:00

Lecture: Modern QFT for Real-World Gravity

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: Advanced Quantum Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Modern QFT for Real-World Gravity

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Thursday 4 September

09:00

Lecture: Advanced Quantum Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: String Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

Friday 5 September

09:00

Lecture: Advanced Quantum Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: String Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30

14:00

Lecture: Advanced Quantum Field Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

15:00

Saturday 6 September

09:00

Lecture: String Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

10:00

10:30

Lecture: String Theory

Session |

Location: School of Physics and Astronomy, B1, University of Nottingham University Park Nottingham NG7 2RD

11:30
