

Session Program

9-13 Jun 2025

WIN 25

Plenaries

University of Sussex, Jubilee Building
Falmer, Brighton BN1 9SN

Monday 9 June

09:30

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Dominic Jones

09:30–10:00

Latest results from the g-2 experiment

Speaker

Joe Price

10:00–10:30

g-2 theory

Speaker

Christoph Lehner

10:30

11:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Ennio Salvioni

11:00–11:30

Gravitational waves: an overview

Speaker

Vitor Cardoso

11:30–12:00

Dark Matter Direct Detection: Global Progress and Prospects

Speaker

Kimberly Palladino

12:00–12:30

High Energy Astrophysical Neutrinos: An Overview

Speaker

Markus Ahlers

12:30

14:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Josh McFayden

14:00–14:30

Experimental highlights on mW, sin2ThetaEff, and alphaS from Z->ll

Speaker

Fabrice Balli

14:30–15:00

Higgs Couplings: Theory

Speakers

Mauro Chiesa, Mauro Chiesa

15:00

15:30

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Thiago Bezerra

15:30–16:00

Higgs Cross Sections measurements by ATLAS and CMS

Speaker

Alessandra Cappati

16:00–16:30

Neutrinoless Double Beta Decay

17:00

Speaker

Ke Han

16:30–17:00

Short Baseline Neutrinos Overview

Speaker

Justin Evans

Tuesday 10 June

09:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Jeffrey John Hartnell

09:00–09:30

Muon Colliders R&D

Speaker

Daniel Schulte

09:30–10:00

Linear Colliders

Speaker

Aidan Robson

10:00–10:30

CEvNS Overview

Speaker

Dimitrios Papoulias

10:30

Wednesday 11 June

09:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Lily Asquith

09:00–09:30 **Wakefield Acceleration**

Speaker
Matthew Wing

09:30–10:00 **Circular Colliders**

Speaker
Jonathan Butterworth

10:00–10:30 **Diversity and Outreach in High Energy Physics**

Speaker
Kate Shaw

10:30

Thursday 12 June

09:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Dominic Jones

09:00–09:30

Kaon, Tau, and Charm Factories

Speaker

Radoslav Marchevski

09:30–10:00

Charm Experimental Results

Speaker

Evelina Mihova Gersabeck

10:00–10:30

Beyond the Standard Model

Speaker

Tevong You

10:30

Friday 13 June

09:30

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Thiago Bezerra

09:30–10:00

Long Baseline Neutrino Experiments

Speaker

Patricia Vahle

10:30

10:00–10:30

Neutrino Applications

Speaker

Liz Kneale

11:00

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Conveners:** Ennio Salvioni, Josh McFayden

11:00–11:30

Neutrino cosmology with three years of DESI data

Speaker

Willem Elbers

11:30–12:00

Forward Neutrinos

Speaker

Alan Barr

12:00–12:30

Flavour & Precision Forecast

Speaker

Admir Greljo

12:30

13:30

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** William Clark Griffith

13:30–14:00

Quantum Tech for Particle Physics

Speaker

Ruben Saakyan

14:00–14:30

Neutrinos Forecast

Speaker

Mark Messier

14:30–15:00

The African School of Physics

Speaker

Christine Darve

15:00

15:30

Plenaries

Session | **Location:** University of Sussex, Jubilee Lecture Theatre | **Convener:** Lily Asquith

15:30–16:00

Highlights from the European Strategy

16:30

Speaker

Angela Taliercio

16:00–16:30

Astroparticle Forecast

Speaker

Filippo Sala
