

Session Program

26-29 May 2026

Nordic-Baltic Astronomy Days 2026

27-A1: Stars

Radisson Blu Marina Palace Hotel
Linnankatu 32, 20100 Turku

Wednesday 27 May

13:15

27-A1: Stars

Session | Location: Room A

13:15-13:30 **Studies of star-forming filamentary clouds**

Speaker

Mika Juvela

13:30-13:45

FEAST: A NIRSPEC/MOS survey of emerging young star clusters in NGC 628

Speaker

Helena Faustino Vieira

13:45-14:00

The emerging timescale of young star clusters in local galaxies

Speaker

Alex Pedrini

14:00-14:15

Metal-poor stars as witnesses for the first steps of the Milky Way assembly history

Speaker

Anastasiia Plotnikova

14:15-14:30

From Carbon to Ytterbium: Infrared Chemistry of Open Clusters Across the Milky Way Disc

Speaker

Shilpa Bijavara Seshashayana

14:30
