

Session Program

26-29 May 2026

Nordic-Baltic Astronomy Days 2026

27-B2: AGN

Radisson Blu Marina Palace Hotel
Linnankatu 32, 20100 Turku

Wednesday 27 May

15:00

27-B2: AGN

Session | Location: Room B

15:00–15:15

Radiation Transport Simulations of Quasi-Periodic Eruptions from Star-Disk Collisions

Speaker

Indrek Vurm

15:15–15:30

Sundman and the final parsec problem

Speaker

Mauri Valtonen

15:30–15:45

Understanding Jet Formation through Changing-look Phenomena with VLBI

Speaker

Gregory Walsh

15:45–16:00

Quasar Tomography: Mapping the physical structure of AGN

Speaker

Vito Tuhtan

16:00–16:15

Echo Mapping of Accretion Flows around Supermassive Black Holes

Speaker

Ms Roberta Vielante

16:15
