

Session Program

26-29 May 2026

Nordic-Baltic Astronomy Days 2026

27-A3: Stars

Radisson Blu Marina Palace Hotel
Linnankatu 32, 20100 Turku

Wednesday 27 May

16:45

27-A3: Stars

Session | Location: Room A

16:45-17:00 **Mapping stellar active regions based on photometry**

Speaker

Mikko Tuomi

17:00-17:15 **Looking Inside Stars: Asteroseismology of Solar-Type Stars**

Speaker

Hans Kjeldsen

17:15-17:30 **Towards a unified observational view of cool-star magnetism**

Speaker

Prof. Oleg Kochukhov

17:30-17:45

Magnetic activity biases in asteroseismic inferences: challenges for stellar age diagnostics in the PLATO era

Speaker

Jérôme Bétrisey

17:45-18:00

Testing the reliability of magnetic field strength measurements for M dwarfs

Speaker

Irene Amateis

18:00-18:15 **Starspots on eclipsing giant stars**

Speaker

Andras Haris

18:15
