

**18th International Conference on
Resistive Plate Chambers and Related Detectors
Rio de Janeiro, Brazil, from September 14-18, 2026**

Rio de Janeiro, June 09th, 2026

Subject: Third Bulletin - Practical information for the 18th International Conference on Resistive Plate Chambers and Related Detectors (RPC 2026)

We are pleased to share practical information regarding the 18th International Conference on Resistive Plate Chambers and Related Detectors (RPC 2026), which will be held in Rio de Janeiro (Brazil) from September 14-18, 2026. Regarding hotels and accommodation, the agency OMNI Eventos is currently negotiating special rates with hotels suggested for participants who book through them. Feel free to contact them if you are interested in a hotel from our [list](#) or in any other, so that they can consult the offer. Furthermore, the agency may offer suggestions for tourist sites and additional services during your stay in Rio de Janeiro.

The conference dinner will be held at the [Terra Brasilis restaurant](#) in Praia Vermelha, next to the Pão de Açúcar cable car station. The RPC 2026 conference dinner will be one of the main social moments of the event, offering participants the opportunity to enjoy Brazilian cuisine in a relaxed atmosphere and to network with the community after the scientific sessions. We hope you will strongly consider joining us for the conference dinner.

RPC 2026 is committed to encourage the participation of students and early-career researchers, with particular attention to applicants who may face financial barriers to attending the conference. A limited number of participation support requests will be considered by the Local Organizing Committee, subject to the availability of local funds. The deadline for abstract submission is June 24th.

You can now find detailed information on accommodation and the financial support procedure at <https://rpc2026.uerj.br/>.

We are looking forward to welcoming you to Rio!

For any questions, please contact the organizers at info.rpc2026@uerj.br.

Dr. Sandro Fonseca de Souza and Dr. Gilvan Augusto Alves

Chairs of the Local Organizing Committee of the RPC 2026 Conference
