

Session Program

29 June 2026 to 3 July 2026

GeomGravX: 10 Years of Geometric Foundations of Gravity and eXtensions (in Tartu)

Kristina Giesel: TBA

Physicum, University of Tartu, A106
W. Ostwaldi 1, Tartu

Thursday 2 July

09:05

Kristina Giesel: TBA: Gravitationally induced decoherence: From theoretical models to applications in neutrino oscillations

Session | **Location:** Physicum, University of Tartu, A106, W. Ostwaldi 1, Tartu

09:15-10:05

Gravitationally induced decoherence: From theoretical models to applications in neutrino oscillations

Speaker

Kristina Giesel

10:05
