

## **Session Program**

**29 June 2026 to 3 July 2026**

# **GeomGravX: 10 Years of Geometric Foundations of Gravity and eXtensions (in Tartu)**

## ***Monday Parallel A1***

Physicum, University of Tartu, A106  
W. Ostwaldi 1, Tartu

# Monday 29 June

13:30

## Monday Parallel A1

**Session** | **Location:** Physicum, University of Tartu, A106, W. Ostwaldi 1

13:30-13:55

**Francesca Spinato: Canonical and non-canonical symmetries in  $f(R)$  cosmology**

13:55-14:20

**Margarida Lima: Non-Minimally Coupled Weyl Connection Gravity: Cosmological Perturbations**

14:20-14:45

**Mahmoud Hashim: Clustered unified dark sector cosmology**

14:45-15:10

**Orest Hrycyna: Two Structurally unstable FLRW models and a new non-hyperbolic de Sitter attractor**

15:10
