

## **Session Program**

**29 June 2026 to 3 July 2026**

# **GeomGravX: 10 Years of Geometric Foundations of Gravity and eXtensions (in Tartu)**

## ***Tuesday Parallel A1***

Physicum, University of Tartu, A106  
W. Ostwaldi 1, Tartu

## Tuesday 30 June

13:30

### Tuesday Parallel A1

**Session** | **Location:** Physicum, University of Tartu, A106, W. Ostwaldi 1

13:30–13:55 **Filippo Contino: Vacuum stability in Geometric Trinity of Gravity**

13:55–14:20

**Sebastian Schuster: Geometric Foundations in and beyond Gravity—The Perspective of Particle Detector Models**

14:20–14:45 **Jakob Palmkvist: The algebraic structure of gravity**

14:45–15:10 **Armin van de Venn: Information Geometry from Divergences**

15:10–15:35 **Tomi Koivisto: More on the physical foundations of geometry**

15:35
