

Session Program

29 June 2026 to 3 July 2026

GeomGravX: 10 Years of Geometric Foundations of Gravity and eXtensions (in Tartu)

Thursday Parallel B

Physicum, University of Tartu, A106
W. Ostwaldi 1, Tartu

Thursday 2 July

13:30

Thursday Parallel B

Session | Location: Physicum, University of Tartu, A101, W. Ostwaldi 1

13:30-13:55

Miguel Zilhão: Exploring the Dynamics of Hairy Black Holes with Numerical Relativity

13:55-14:20

João Luís: Oscillating images from dark matter scalar solitons

14:20-14:45

Hanna Liis Tamm: Polarimetric imprints of exotic compact objects

14:45-15:10

Ujjwal Agarwal: Locally Rotationally Symmetric Spacetimes in Einstein-Cartan Theory and Their Classification

15:10
