

Session Program

29 June 2026 to 3 July 2026

GeomGravX: 10 Years of Geometric Foundations of Gravity and eXtensions (in Tartu)

Damianos Iosifidis: Lagrangian dynamics and Regge-like trajectories for microstructured test bodies

Physicum, University of Tartu, A106
W. Ostwaldi 1, Tartu

Thursday 2 July

11:00

Damianos Iosifidis: Lagrangian dynamics and Regge-like trajectories for microstructured test bodies

Session | **Location:** Physicum, University of Tartu, A106, W. Ostwaldi 1, Tartu

11:00-11:25

Lagrangian dynamics and Regge-like trajectories for microstructured test bodies

Speaker

Damianos Iosifidis

11:25
