

XV LATIN AMERICAN SYMPOSIUM ON NUCLEAR PHYSICS AND APPLICATIONS

São Paulo, BRAZIL

07 - 10 December 2026

Host institution: IPEN / SP

First circular

Dear Colleagues,

The Local Organizing Committee, on behalf of the Latin American Association of Nuclear Physics and its Applications (ALAFNA), is pleased to invite the international scientific community to participate in the XV Latin American Symposium on Nuclear Physics and Applications (LASNPA 2026).

Following the tradition of the LASNPA series, which began in 1995, this conference serves as the biennial meeting for strengthening collaboration among Latin American communities and our international partners in nuclear research and applications.

Scientific Topics

The scientific program will cover a broad spectrum of topics, including:

- Nuclear Structure
- Nuclear Reactions
- Hadronic Physics
- Nuclear Astrophysics
- Fundamental Symmetries and Neutrinos
- Applications of Nuclear Techniques
- Nuclear Instrumentation, Detectors, and Accelerators
- Nuclear Education and Outreach

Organizing Committee

- Nilberto H. Medina (coordinator - USP, Brazil)
- Frederico Genezini (IPEN, Brazil)
- Leandro R. Gasques (USP, Brazil)
- Leticia Palhares (UERJ, Brazil)
- Marcelo Munhoz (USP, Brazil)
- Marcilei Aparecida Guazzelli (FEI, Brazil)
- Roberto Linares (UFF, Brazil)

contact: medina@if.usp.br

Dates (Preliminary)

- Abstract Submission Opens: March, 2026
- Registration Opens: March, 2026
- Abstract Submission Deadline: July, 2026
- Conference Dates: 07 to 10 December, 2026

(Please note: dates are subject to confirmation.)
