

## Session Program

**9-13 Feb 2026**

## Transients in Middle Earth

### ***Supernovae***

University of Canterbury, Rātā / Engineering Core Building  
63 Creyke Road, Ilam, Christchurch 8041, New Zealand

## Monday 9 February

10:00

### Supernovae

Session |

**Location:** University of Canterbury, Rātā / Engineering Core Building, 63 Creyke Road, Ilam, Christchurch 8041, New Zealand

10:00-10:20 **Constraining Cas A's Shock Break-Out with IR Echoes**

**Speaker**

Rodrigo Angulo

10:20-10:40 **SN 2019vxm: A Shocking Coincidence between Fermi and TESS**

**Speaker**

Zachary Lane

10:40-11:00 **Morning tea**

11:00-11:20

**The Eye of Sauron in SN2025ngs: A Fast Evolving Interacting Supernova with a Disc-like Circumstellar Medium**

**Speaker**

Conor Ransome

11:20-11:40

**SN Eos: A Multiply-Imaged, 30x Magnified SN Near the Epoch of Reionization**

**Speaker**

David Coulter

11:40-12:00 **placeholder - Justin**

12:00
