Session Program

19–23 Oct 2026

Resummation, Evolution and Factorization REF 2026

Talks III

Santiago de Compostela, Spain
IGFAE

Tuesday 20 October

11:50

Talks III: Talks III

Session | **Location:** Santiago de Compostela, Spain, IGFAE

11:50–12:10

Azimuthal modulations in double quarkonium production in polarized hadronic collisions

Speaker
Franco E. Barattini

12:10–12:30

qT/Q correction for unpolarized Drell-Yan in TMD factorization

Speaker
Arturo Arroyo Castro

12:30–12:50

Event-axis TMD measurements in $e^{+}e^{−}$ and SIDIS

Speaker
Daniel Díaz Fernández

12:50–13:10

CSS evolution in light-cone gauge: studying the impacts of residual gauge and of gauge link type

Speaker
Guillaume Beuf

13:10–13:30

One-loop renormalization of the quark TMD in the projectile light-cone gauge

Speaker
Mirja Tevio

13:30
