

Session Program

11-13 May 2026

Phenomenology 2026 Symposium

New Ideas in Baryogenesis, Inflation

University of Pittsburgh

Monday 11 May

14:15

New Ideas in Baryogenesis, Inflation

Session | Location: University of Pittsburgh

14:15-14:30 **Axiverse Baryogenesis**

Speaker

Pouya Asadi

14:30-14:45 **Gravity's Gift: Baryons from the Big Bang**

Speaker

Andrew Long

14:45-15:00 **Lingering to Inflation and the Hagedorn Phase Transition**

Speaker

Luis Rufino

15:00-15:15 **Non-Gaussianity in Warm Inflation**

Speaker

Sagnik Mondal

15:15-15:30 **The Entangled State from a cosmological Euclidean Wormhole**

Speaker

Wei-Chen Lin

15:30-15:45 **Stochasticity in reheating**

Speaker

Leia Price

15:45-16:00

The Extra-dimensional Origins of the Chemical Potential at the Cosmological Collider

Speaker

Zhaohui Xu

16:00
