

**Session Program**

**5-8 May 2026**

**15th Nordic Meeting on Nuclear Physics**  
***Facilities, Accelerators, and Instrumentation***

Gotland, Visby, Bryggarsalen  
Visby Strand Hotel

## Tuesday 5 May

14:00

### Facilities, Accelerators, and Instrumentation: I

**Session** | **Location:** Gotland, Visby, Bryggarsalen, Visby Strand Hotel | **Convener:** Andreas Solders

14:00-14:25

#### New isotopes search experiments at GSI and prospective for FAIR

**Speaker**

Prof. Stephane Pietri

14:25-14:45

#### Gamma-neutron program for structure nuclear and reactions with $\gamma$ -ray beams at ELI-NP

**Speaker**

Pär-Anders Söderström

14:45-15:05

#### Recent Developments and Measurements at the JYFLTRAP Mass Spectrometer

**Speaker**

Simon Rausch

15:05-15:25

#### Physics highlights from the SEC station of HIE-ISOLDE

**Speaker**

Olof Tengblad

15:30

## Friday 8 May

10:45

### Facilities, Accelerators, and Instrumentation: II

**Session** | **Location:** Gotland, Visby, Bryggarsalen, Visby Strand Hotel | **Convener:** Vette Wegner Ingeberg

10:45-11:05

#### Fragmentation Cross-section Measurements at FRS Using the Uranium Beam

**Speaker**

Tuomas Grahn

11:05-11:20

#### Designing coincidence gamma-ray spectrometers with optimized minimum detectable activity

**Speaker**

Elias Arnvist

11:20-11:35

#### First measurements of the $(n,Xp)$ Fe-nat cross sections with the Medley setup at GANIL

**Speakers**

Lucas De Arruda Serra Filho, Diego Tarrío

11:35-11:50

#### Hadron physics at Belle II

**Speaker**

Bianca Scavino

11:50-12:05

#### Belle II Tracking and Optimisation of Hit Finding

**Speaker**

Mr Adeel Akram

12:05
