

Session Program

5-8 May 2026

15th Nordic Meeting on Nuclear Physics
Nuclear Astrophysics, and Reactions

Gotland, Visby, Bryggarsalen
Visby Strand Hotel

Thursday 7 May

09:00

Nuclear Astrophysics, and Reactions

Session | **Location:** Gotland, Visby, Bryggarsalen, Visby Strand Hotel | **Convener:** Eda Sahin

09:00–09:25 **Precision mass measurements for nuclear astrophysics**

Speaker

Anu Kankainen

09:25–09:50

Resolving the Hoyle state measurement performed at OCL and planned carbon-fusion measurements in the AMiCARE project

Speaker

wanja paulsen

09:50–10:15

The Pygmy Dipole Resonance and its evolution across the Sn mass region

Speaker

Dr Maria Markova

10:20
