

**Session Program**

**15-17 Apr 2019**

**Workshop on the Circular Electron-Positron  
Collider**

***Beyond Standard Model II***

Oxford

## Tuesday 16 April

10:50

### Beyond Standard Model II

**Session** | **Location:** Room 8 | **Conveners:**

Nikolaos Rompotis, Matthew Philip Mccullough, Zhen Liu, LianTao Wang

10:50-11:10

#### Higgs decays to long lived particles

**Speakers**

Sinead Farrington, Sinead Farrington

11:10-11:30

#### Probing leptogenesis at future colliders

**Speaker**

Juraj Klaric

11:30-11:50

#### Electroweak phase transition

**Speaker**

Dr Andrew Long

11:50-12:10

#### Heavy resonances as a BSM interpretation of a potential Higgs to $b\bar{b}$ excess at the LHC (and beyond)

**Speaker**

Stathes Paganis

12:50
