

Automatic cataloguing of the Books of Hours. Textual unit identification and structural annotation

Thursday, 5 March 2026 13:00 (30 minutes)

The talk will deal with rule-based approaches, which allow us to establish a baseline that will be further used to assess the benefits of the LLMs (both in detection quality and computational cost).

Presenter: YATSYK, Svetlana (IRHT, CNRS)

Session Classification: Session 2
