

Session Program

11-13 May 2026

**Nuclear Masses in Astrophysics for the Next
25 Years**

Presentations

Facility for Rare Isotope Beams, East Lansing, MI, USA

Monday 11 May

09:00

Presentations: Astrophysics

Session | **Location:** Facility for Rare Isotope Beams, East Lansing, MI, USA

10:20

10:50

Presentations: Theory

Session | **Location:** Facility for Rare Isotope Beams, East Lansing, MI, USA

12:20

14:00

Presentations: Data

Session | **Location:** Facility for Rare Isotope Beams, East Lansing, MI, USA

15:20

Tuesday 12 May

09:00

10:20

Presentations: Experiments

Session | **Location:** Facility for Rare Isotope Beams, East Lansing, MI, USA
