

Session Program

5-6 Jun 2026

34th Annual Symposium of the Hellenic Nuclear Physics Society, HNPS2026

Online Session

Lamia, University of Thessaly, Physics Department, Library Amphitheatre
3rd km Old National Road Lamia-Athens 35100, Lamia Greece

Friday 5 June

17:45

Online Session

Session | **Convener:** A. Lagoyannis

17:45–18:00

Statistical Evidence for Oscillatory Components in Neutron-Capture Cross Sections

Speaker

Thanos Stamatopoulos

18:00–18:15

Probing Explosive Nucleosynthesis through (α,n) and (p,n) Reactions Using SECAR

Speaker

Pelagia Tsintari

18:15–18:30

Probing nuclear interactions à la Rutherford: insights on ^4He from α scattering

Speaker

Vasileios Soukeras

18:30–18:45

First results of the neutron induced fission cross section measurement of Uranium-236 at n_TOF facility

Speaker

Zinovia Eleme

18:45–19:00

Charged-particle discrimination using an NTD silicon detector at n_TOF/CERN

Speaker

Styliani Goula

19:00
